Manufacturers, end users, and other similar users can confidently purchase Trojan batteries because Trojan batteries have advanced technical support and satisfactory customer service. Moreover, with its vast global distributor network, numerous distributors, and an increasing number of retailers, Trojan batteries sell well around the world.

In order to improve efficiency and provide more convenient services for people's livelihoods, the local government of Jiaxing needs to build a government cloud. Jiaxing Telecom seized the opportunity and transformed the cloud DC using the PSTN network withdrawal room. The data center needs to build a computer room with around 100 IT cabinets and a private cloud platform to provide government cloud services to the local government.

嘉兴电信面临业务发展挑战，对于政府政务云机房独立设置的要求，需要尽快利用现有闲置设施，盘活资产，实现对外增收；要求上线快、节约能耗。在建设过程中，采用华为智能微模块解决方案，建设海宁节点、桐乡节点，以分布式云数据中心架构统一资源池，提高DC管理效率。微模块工厂预制、现场拼装2个月交付，快速响应终用户诉求；支持后期扩容，同时满足用户低能耗（PUE<1.5）诉求，且支持可视化监控及运维，满足电信数据中心建设目标。
