

太阳能光伏电站 临潼维宁

产品名称	太阳能光伏电站 临潼维宁
公司名称	营口临潼维宁科技有限公司
价格	面议
规格参数	加工定制:否 品牌:临潼维宁 型号:ltwnsl-pv-001
公司地址	营口市西市区宏升街33号
联系电话	0417-6615356 18611721497

产品详情

太阳能光伏电站系列

通过太阳能电池仿真将太阳能辐射能转换为电能的发电站成为太阳能光伏电站。太阳能光伏电站按照运行方式可分为独立太阳能光伏电站和并网太阳能光伏电站。未与公共电网相连接独立供电的太阳能光伏电站称为离网光伏电站。主要应用于远离公共电网的无电地区和一些特殊场所，如为边远偏僻农村、牧区、海洋、高原、沙滩的农牧渔提供照明、看电视、听广播等基本的生活用电，为通信中继站、沿海与内河航标、输油输气管道阴极保护、气象电站、公路道班以及边防哨所等特殊处所提供电源。独立系统由太阳能电池方阵、系统控制器、蓄电池组、直流/交流逆变器等组成。

solar pv power station series the power station which converts solar radiation energy into electrical energy becomes solar pv power station by simulating solar cell. solar pv power station can be divided into independent solar pv power station and grid-connected solar pv power station in accordance with different operation modes. the independent solar pv power station which doesn ' t connect with the public grid is called off-grid pv power station. it ' s mainly used in the areas which is without electricity and far away from public grid and some special places, such as to supply lighting for agriculture/animal husbandry/fishery of remote rural area, pastoral area, ocean, plateau, beach, to supply basic living electricity for watching tv, listening to the radio, etc. and to supply power for communication relay station, coastal and inland river navigation mark, cathodic protection for oil and gas pipeline, meteorological station, highway maintenance squad, border posts and some other special areas. the independent system consists of solar cell array, system controller, battery group, dc / ac inverter, etc.

"太阳能光伏电站"的型号为L TWNSL-PV-001，蓄电池容量是200（AH），输出频率为0（Hz），输出电压是24（V），光电板功率为280（Wp），品牌是临潼维宁，产品认证为ISO9001，主机输出容量是280（W），加工定制为否
