

锅炉鼓风机“专业执着”专业制造“专业专注

产品名称	锅炉鼓风机“专业执着”专业制造“专业专注
公司名称	常州市武鸿锅炉辅机设备有限公司
价格	面议
规格参数	
公司地址	常州市武进区横林镇横玉路240号
联系电话	0519-88727780 13861154777

产品详情

锅炉鼓风机 * 13861154777 常州市武鸿锅炉辅机设备有限公司 加大炉内空气量。为避免锅炉冒正压要挟现场人员及影响锅炉本体卫生状况，该厂规则负压设定值为 - 150pa，并进行相应的负压查核。因而，每个值在当班时都坚持较高的负压运转，锅炉鼓风机形成炉膛出口处至氧化锆装置处漏风严峻；因为氧化锆装置在省煤器处，尽管运转过程中氧量坚持在3.5 ~ 4.5左右，可是主焚烧区缺风严峻，锅炉鼓风机炉内呈复原性气氛，结渣性增强。经过在原有氧量基础上恰当进步0.5%，较大程度地阻碍了炉膛结渣。increase the amount of air in the furnace. in order to avoid at positive pressure to coerce field personnel and influence health body boiler, the factory rules of negative pressure set value of 150pa, and negative for the corresponding. thus, each value of negative pressure operation during the shift to higher, boiler blower formed at the outlet of the furnace to zirconia device leakage serious; because the zirconia device in the economizer, although oxygen operation process maintained at 3.5 ~ 4.5, but the main combustion zone lack of wind severe, boiler furnace with blower restoration of atmosphere, slagging enhancement. on the basis of the original oxygen through appropriate progress 0.5%, greatly hindered the slagging in furnace. 常州市武鸿锅炉辅机设备有限公司地址：常州市武进区横林镇横玉路240号 销售电话：0519-88727580/88727680 传真：0519-88727880 手机：13685262969 qq：2249080673 邮箱：boiler88@126.com 出渣机：www.cz-boiler.net. 锅炉引风机：www.whboiler.com. 螺旋片：www.glfj.net. 链轮：www.wh-boiler.com. 螺旋除渣机：http://glboiler.cn.alibaba.com. 高效节能泵：http://wrypump.cn.alibaba.com. 离心式热油泵www.wry006.com. 高温导热油泵www.wry002.com. wry热油泵www.wry008.com. wry导热油泵www.wry003.com. 常州导热油泵www.wryb.com. 2014.1.14小单 .
