FedEx Express, a subsidiary of FedEx Corp. (NYSE: FDX) and one of the world's largest express transportation companies, announced its 14th edition of the 'Power Networking Meet' events. An event that underscores the company's unwavering commitment to empower small and medium-sized businesses (SMEs) in India. FedEx achieves this by harnessing the power of intelligent logistics solutions, all underpinned by digital innovation aimed at streamlining trade and fortifying business resilience.

The event in Jaipur saw an impressive attendance of more than 110 customers and prospects from the textiles, apparels, imitation jewelry, home furnishing and e-commerce industries where they enthusiastically participated in the Q&A and networking session.

Nitin Navneet Tatiwala, vice president of FedEx Express MEISA marketing, said, "SMEs are driving India's economic growth. With over 50 years of logistics expertise, we help SMEs navigate the complexities of global trade, optimize their supply chains, and position them for sustained growth. Forums like our Power Networking sessions help SMEs understand and utilize FedEx solutions effectively. They also create a space for SMEs to provide feedback, which we greatly value, helping us to enhance our services. Beyond logistics, we see ourselves as growth enablers, connecting these businesses to global opportunities and helping them thrive in this digital age."

FedEx offers speed and reliability through faster transit times via an enhanced air network. Critical and urgent shipments can now reach major markets and territories around the world within two to three business days* through the FedEx International Priority service. Furthermore, FedEx provides enhanced economy services, catering to the cost-effective and timely delivery of less urgent shipments, ensuring businesses and individuals can optimize their shipping choices with reliability and affordability. The FedEx International Connect Plus (FICP) has also been expanded to 14 markets across Asia Pacific, the Middle East, and Africa. This offers a cost-effective e-commerce international shipping solution with competitive speed and attractive prices, delivering most shipments within the region within one to three business days*.

To further support SMEs in navigating the global marketplace, FedEx offers a wide range of solutions by unlocking digital intelligence. Interactive solutions like [FedEx Delivery Manager International](#) (FDMi) allows businesses to offer their customers the freedom to manage delivery preferences. Automated tools, including [FedEx Ship Manager](#), enables SMEs to access forms, prepare shipping labels, and generate documentation effortlessly. The ' [Electronic With Originals](#) ' feature allows businesses to submit customs documentation digitally.

FedEx remains dedicated to supporting the growth and success of Indian SMEs. The Power Networking meets are just one of the ways we ' re committed to ensuring that businesses in India have the tools, expertise, and resources they need to thrive in today ' s global marketplace.
