

高频三极管BF998 微波

产品名称	高频三极管BF998 微波
公司名称	深圳市赛达旺科技有限公司
价格	.00/PCS
规格参数	应用范围:微波 品牌:nxp/恩智浦 型号:bf998
公司地址	深圳市福田区福田南路24号福宁街167号桐林公寓B座7A-4
联系电话	13418565905

产品详情

features

- short channel transistor with high forward transfer

admittance to input capacitance ratio

- low noise gain controlled amplifier up to 1 ghz.

applications

- vhf and uhf applications with 12 v supply voltage,

such as television tuners and professional

communications equipment.

description

depletion type field effect transistor in a plastic

microminiature sot143 or sot143r package with source

and substrate interconnected. the transistors are

protected against excessive input voltage surges by

integrated back-to-back diodes between gates and

source

本产品的封装形式为SOT-23，型号是BF998，品牌为NXP/恩智
