FedEx Express, a subsidiary of FedEx Corp. (NYSE: FDX) and the world ’ s largest express transportation company, celebrates five years of operations this autumn at its international hub at Cologne/Bonn, Germany.

Since the move from Frankfurt/Main to Cologne in 2010, the Cologne hub has grown steadily in capacity, increasing from 35 employees to more than 680. It is a vital facility in the FedEx worldwide network, acting as a central gateway for shipments arriving by ground or air from Central and Eastern Europe and providing fast connectivity within Europe, to the U.S. and Asia.

The hub ’ s automated sorting system can process up to 18,000 documents and packages an hour and plays a key part in keeping businesses connected to more than 220 countries and territories worldwide.

The intensive hands-on learning experience will be open to 150 small business owners who have just been exposed to e-

commerce. It is planned to last for five months from September 2021. This time frame will ensure that participants receive technical support in all aspects of holiday support marketing and promotion as well as management of holiday orders. Traditionally, e-commerce is the busiest time of the year.
