

日本白光FR-801拨放台hakko fr-801esd热风式

产品名称	日本白光FR-801拨放台hakko fr-801esd热风式
公司名称	深圳市信之达科技有限公司
价格	1.00/台
规格参数	品牌:HAKKO 型号:FR-801 :-
公司地址	深圳市宝安区沙井街道上星工业区
联系电话	13148880362

产品详情

信之达优势供应 直接日本进货，一手货源，售后保证 hakko fr-801拨放台 hakko fr-801扁平集成电路拨放台

- 1.出风口采用全新机械式设计,减低温度不规律情况；
- 2.数码显示功能；
- 3.设有温度补正功能,根据喷嘴尺寸补正送出热风之温度误差；
- 4.设有省电功能(可选择30分钟/60分钟/),到达设定时间系统会自动停止送出热风；
- 5.设自动冷却功能,关掉电源后系统会继续送出冷风,直到喷嘴套管温度下降到100 ,以防止发热组件过热；
- 6.设有锁卡功能,避免设定数据被随意改动。
- 7.设有风量计,提供快捷准确的风量调节；
- 8.节省工作空间设计；
- 9.拆消静电设计。

功率消耗：30w/4w(待机状态) 风量：5 – 20l/min (最大)

温度控制：100 - 450 (使用a1126b) 外部尺寸：160(w) x 145(h) x 230(d)

重量：4.3kg

现货供应，详情请来电咨询 林先生13148880362

ji reaches the advantage of supply directly the japanese goods, the primary sources of goods, customer service guarantee

hakko fr-801 drawing table

hakko fr-801 flat out put station integrated circuits

the 1 air outlet adopts new mechanical design, to reduce the temperature irregular situation;

2 digital display function;

3 is provided with temperature compensation function, according to the temperature of hot air nozzle size correction to send error;

4 is provided with a power function (optional 30 minutes /60 minutes /), arrived in the set time the system will automatically stop sending hot air;

5 let automatic cooling function, the system will continue to send cold air to turn off the power after the nozzle casing, until the temperature dropped to 100 , to prevent overheating of the heating components;

6 is provided with a locking function, avoid setting data is free to change.

7 is provided with an air flow meter, to provide fast and accurate adjustment of the air;

8 save working space design;

9 eliminate static design.

power consumption: 30w/4w (standby) volume: 5 – 20l/min (max)

temperature control: 100 - 450 (a1126b) external size: 160 (w) x 145 (h) x 230 (d)

weight: 4.3kg

spot supply, please call us to mr. lin 13148880362
