产品详情

Shenzhen Xinchuangxin Electronic Technology Co., Ltd., as a leading provider of digital signage solutions, is proud to introduce our latest product - the 18.5-21.25-32-43-49-55-inch Wall-Mounted Advertising Display. With its high-definition, ultra-thin design, and versatile vertical and horizontal screens, this multimedia promotional screen is the ultimate solution for businesses looking to captivate their audience and increase brand awareness.

When it comes to choosing an advertising display, brightness is a crucial factor. Our 18.5-21.25-32-43-49-55-inch Wall-Mounted Advertising Display boasts an impressive 300cd/m2 brightness, ensuring that your content will be displayed with eye-catching clarity even in brightly lit environments. Whether you are promoting your products in a shopping mall or displaying important information in a corporate setting, this high level of brightness guarantees visibility and impact.

Another important consideration when selecting an advertising display is the physical resolution. Our 18.5-21.25-32-43-49-55-inch Wall-Mounted Advertising Display offers a superior physical resolution of 1080*1920, which means your content will appear sharp and vibrant. Whether you are showcasing detailed product images or displaying text-heavy information, the high resolution ensures that every detail is rendered with precision, enhancing the overall viewing experience.

In addition to brightness and resolution, the viewing angle is also a crucial factor to consider. Our 18.5-21.25-32-43-49-55-inch Wall-Mounted Advertising Display features a wide viewing angle of H178 and V178, ensuring that your content is visible from any direction. Whether your audience is standing directly in front of the screen or viewing it from an angle, they will have a clear and unobstructed view of your message. This 178-degree viewing angle means that no matter where your customers are situated, they will be able to engage with your content without any loss in quality or clarity.

At Shenzhen Xinchuangxin Electronic Technology Co., Ltd., we understand that every business has unique needs and requirements. Therefore, our 18.5-21.25-32-43-49-55-inch Wall-Mounted Advertising Display is designed to be versatile and flexible. With its multiple screen sizes ranging from 18.5 inches to 55 inches, you can choose the perfect size to fit your space and budget. Whether you need a smaller screen for a retail store or a larger screen for a trade show booth, we have the right solution for you.

Furthermore, our Wall-Mounted Advertising Display can be easily installed in both portrait and landscape orientations. This means you can showcase your content in the most impactful way, whether it is a vertical advertisement or a horizontal promotional video. The choice is yours, and our display is ready to adapt to your vision and content strategy.

In conclusion, our 18.5-21.25-32-43-49-55-inch Wall-Mounted Advertising Display is the perfect choice for businesses looking to excel in their promotional efforts. With its high brightness, superior resolution, wide viewing angle, and flexible orientation options, this multimedia promotional screen will undoubtedly capture the attention of your target audience and leave a lasting impression. Don't miss out on this opportunity to enhance your brand presence and boost your sales.
