Successfully expanded the ground operation station in Xiamen, enhancing international and domestic cargo handling capabilities. The new operation station has a building area of approximately 2600 square meters and is equipped with import and export sorting, security, and information technology systems. It can sort about 2000 packages and documents per hour, which is nearly 40% more efficient than before. It is the operation station among all foreign-funded express delivery enterprises in Fujian Province. At present, the operation station has 80 employees and is equipped with 42 express delivery vehicles, responsible for providing international and domestic express pick-up and delivery services to customers in the entire Xiamen area.

Starting today, a new "FedEx Priority Customization Service" will be launched to provide supply chain management services for customers with special needs in logistics transportation, applicable to goods exported from Xiamen to the world and imported from the United States and major Asian countries. This service will design specific solutions and transportation routes according to customer needs, enjoy priority processing and boarding on FedEx cargo planes, use dedicated vehicles to pick up and deliver goods, provide weekend and holiday delivery, and have a dedicated team to provide 24-hour cargo management.

Xiamen is not only an important economic city in the eastern coastal region, but also a major logistics center city in the country. Its unique geographical advantages and favorable economic development situation provide a solid foundation for the development of the logistics industry. In 2015, the gross domestic product of Xiamen region was 346.6 billion yuan, a year-on-year increase of 7.2%; The total import and export volume reached 516.95 billion yuan, an increase of 0.8% compared to the same period last year, accounting for 49.2% of the import and export value of Fujian Province during the same period. In addition, e-commerce in Xiamen has developed rapidly, and the retail sales of commercial enterprises above designated size in Xiamen reached 9.247 billion yuan through the Internet in 2015, an increase of 37.9%. [3] The development of e-commerce will be conducive to further promoting the logistics industry in Xiamen. According to the development plan, Xiamen is expected to achieve a total logistics industry revenue exceeding 100 billion yuan in 2016 and become a logistics industry hub city in the economic zone on the west coast of the Taiwan Strait.
