

LIF human

产品名称	LIF human
公司名称	北京启维益成科技有限公司
价格	面议
规格参数	品牌:ORF Genetics
公司地址	北京市海淀区西三旗悦秀路99号通厦公元99一号楼305室
联系电话	86-01082743160

产品详情

lif, human, recombinant

leukemia inhibitory factor (lif) is a pleiotropic lymphoid factor belonging to the interleukin-6 family of cytokines. it was initially described as a factor inhibiting the proliferation of myeloid leukemia cells and inducing their differentiation into macrophages. other activities of lif include inhibition of adipogenesis and roles in cholinergic neuron differentiation, hematopoeisis, inflammation and bone metabolism. lif inhibits the differentiation of embryonic stem cells, it is therefore important in es cell culture. human and mouse lif share 78% amino acid homology, the human version is equally active on human and mouse cells but murine lif is not active on human cells.
