## 产品详情

Your registered products will undergo the WERCSmart product compliance assessment review. If any data inconsistencies are discovered during the assessment review, the product is put on hold, and suppliers are alerted by listing the product's status as "Needs Attention" in their WERCSmart product management dashboard. This article highlights a few practices that can be used to mitigate product suspensions and allow for a seamless WERCSmart registration experience.

### #1 Using an OSHA compliant Safety Data Sheet:

Used as the primary document for worker safety, the Safety Data Sheet (or SDS) is crucial to your success in registering products. This document carries most of the information that is needed for product registration and will also be uploaded in conjunction with the data you input during the registration process. Before submitting your SDS, be sure it follows the 16 section GHS format standard guidelines. Pay particular attention that Section 2 provides information for Hazards Identification and Section 3 provides the product's composition, as these two sections have been used differently in other legacy SDS formats. Also, be sure classifications and accurate pictograms are used in Section 2 that are consistent with the composition data you have identified Section 3.

WERCSmart注册要求的数据：取决于你要注册的商品的类型，你可能需要下列数据种类（并不包含所有）：-UPC、GTIN、SKU或者EAN标示和零售商特定代码（DPCI、OMSID）-零售商发行的供应商的ID号

(如果可以的话) -商品所含的所有材料或者成份(化学名称、有效的CAS ID号、每个原料的成分比例)。制剂值不能少于。要求完全公开。-物理性质(ph、闪(燃)点、沸点,等等)-EPA和国家农药登记适用产品-VOC(挥发性有机化合物)数据,如适用产品的CARB、OTC和SCAQMD-陆地、航空、铁路和水路运输数据大多所需的信息来自公司内部的不同部门,包括交通运输部/后勤部、研究&开发和管理部。有些注册数据也可在SDS表上找到。你应该有其中一个可以使用。
