产品详情

zp18c型制瓶机是同类型制瓶机基础上加以改进升级，其升级部分：

制颈组采用直线导轨代替原燕尾槽，是一种改革性的突破。b部制底夹身组采用直线轴承代替原燕尾槽做滑移机构，彻底改变了燕尾槽易磨损易松动易卡死不好维修等难点。a部钻夹头式夹头爪各自可以微调同心度。b部第三代反装扭簧式夹头。双同步电动机动力箱取代原蜗轮箱，彻底消除a、b盘颤动，以及漏油和维修难题。抱管机构提高了成品率且减轻了工人的工作量。b部夹身防滴油污染成品瓶的措施。可调制颈立轴，及微调机心中性点。原机型因先天不足是无法做到这一点。gcr15轴承钢间歇凸轮不用经常修磨，寿命长。

10.直齿伞齿轮传动改为合金螺旋伞齿轮传动，大大提高了其使用寿命和降低了噪音。

zhejiang yueqing changli machinery factory, founded in 1991, is located in china's electric appliance all wenzhou yueqing liushi town, close to the beautiful yandangshan mountain. china pharmaceutical packaging association members.

formerly known as yueqing yangtze river packing machine factory, is a professional production of wac went in the production line of enterprise. enterprise has the standard workshop of 4000 square meters and more than 100 employees, of which 10 engineers, technicians of 21, had full, science, quality management system. enterprises with advanced production equipment, professional, product components adopt advanced cnc machines, grinding machine processing. production process, advanced technology, after years of effort, and gradually become the only one with independent scientific research, the development of the enterprise.

this enterprise production of wac went production line, a high degree of automation, compact structure, high output, process layout is reasonable, less energy consumption, low noise, low labor strength workers. in addition to the vulnerable parts, the guarantee period of one year. welcome friends from all circles to visit, visit and business cooperation.

as the country of bottle machine is introduced from germany in the 1950 s, the far not keep up with us now to the

requirements of the quality of the cylindrical vials, so we to promotion and the transformation, after three years of hard work and finally obtain satisfactory effect, its production of products meet or exceed the Europe and America standards. After the investigation of the domestic famous enterprises, are affected by their high praise and get their precious advice, in this paper we will thank them!

本产品的加工定制是是，品牌是长力牌，型号是ZP18C，功率是1（Kw），重量是865（kg），最小加工尺寸是 14，最大加工尺寸是 32，加工厚度范围是1~1.2（mm），玻璃回转直径是 14~ 30（mm），钻孔直径是 6~ 20（mm），进料速度是可调（m/min），外形尺寸是1400X1300X1440（mm），玻璃机械种类是玻璃制瓶机，生产线类型是玻璃制瓶机，生产玻璃种类是其他
