

# 鑫鸿中频感应加热设备 输油输气管道焊接预热&涂覆加热

产品名称	鑫鸿中频感应加热设备 输油输气管道焊接预热&涂覆加热
公司名称	青岛鑫鸿电气科技有限公司
价格	.00/件
规格参数	品牌:鑫鸿 XHD:MYD-40KW 产地:青岛
公司地址	山东省青岛市开发区珠江路94号内3栋1单元2102 (注册地址)
联系电话	15275229783

## 产品详情

### MYD Proheat300-40KW portable induction heater for oil and gas pipeline weld preheat and coating preheat

Heating equipment and accessories:

1. MYD-40KW induction heater
2. Extent cable for coil 10m
3. Thermalcouple K type 10m
4. Induction Blanket coil

(1) For pipeline circle joint weld preheat

Blanket coil 2400\*300mm (Pipeline 711)

Blanket coil 3000\*300mm (Pipeline 914)

Blanket coil 3400\*300mm (Pipeline 1016)

Blanket coil 4000\*300mm (Pipeline 1219)

Blanket coil 4600\*300mm (Pipeline 1422)

(2) For pipeline coating preheat

Blanket coil 2700\*400mm (Pipeline 711)

Blanket coil 3300\*400mm (Pipeline 914)

Blanket coil 3700\*400mm (Pipeline 1016)

Blanket coil 4300\*400mm (Pipeline 1219)

Blanket coil 4900\*400mm (Pipeline 1422)

(3) For pipeline straight joint weld preheat

We need to know the joint length.

Remarks:

Heating time: 3-10mins for Oil and gas pipeline with 711-1422mm diameter

We need to know the pipeline diameter and coating thickness for design the coil.

Blanket coil size: Length(Weld joint length+120mm)\*Width(Heating length)\*30mm

Precautions for equipment installation and operation:

1. Fix the thermocouple: the center of the weld, above the pipe.
2. Fix the insulation blanket: the center of the weld, and the opening is below the pipe.
