

JD-420 精密带刀片皮机

产品名称	JD-420 精密带刀片皮机
公司名称	东莞市厚街老王针车配件店
价格	面议
规格参数	种类:片皮机(大铲) 操作类型:全自动
公司地址	东莞市厚街镇河田村河田路口 (即S256省道旁5号铺)
联系电话	86-076985080921 13925890055

产品详情

该机适用于对皮革制品行业中宽420mm，厚为8mm以下的

硬、软上料进行片薄，片匀至所要求厚度的设备。可任意

调节片削厚度，提高产品质量，增强市场竞争力。特点：

- 1、数字显示片削厚度，进料无级变速。
- 2、单一手柄调整磨刀装置及启动自动控制装置。
- 3、自动进刀定位装置，无须调整刀具
- 4、自动调整刀具压力板间隙，使片削精度更高。
- 5、电子相位自动检测系统。
- 6、皮料卷入自动停机系统
- 7、独立皮屑吸尘与磨刀粉尘吸尘装置。

8、特大飞轮使带刀动作更加稳定、精确。

9、3570/2830mm特长带刀经久耐用，经济实惠，降低经营

成本。

10、精确的轨道使飞轮移动可靠，更换带刀更加容易、快

速、方便。11、片削不同的皮革，片削的压力自由调节。

12、适当的工作高度旨在减少操作劳累。

13、机械部件永远润滑。

this machine is suitable for leather products industry wide 420mm, 8mm thick below hard and soft material carried on the thin film, film thickness uniform to the required equipment. can be arbitrary adjust the thickness of film cutting, improve product quality and enhance market competitiveness. features: 1, the figures show that the thickness of slices cut, feed continuously variable. 2, a single lever to adjust sharpening device and start the automatic control device. 3, the automatic feed positioning device, no need to adjust the tool. 4, the tool automatically adjust the pressure plate gap, the film cutting precision. 5, e-phase auto-detection system. 6, leather materials involved in the automatic shutdown system. 7, independent and grinding dust and dust vacuum device. 8, large flywheel to make knives movements more stable and precise. 9, 3570 / 2830mm long knives durable, affordable, reduce operating costs. 10, the precise orbit that flywheel moving, reliable, easier to replace the knife, quick fast and convenient. 11 different pieces of leather cut, chip free cutting pressure regulation. 12, appropriate working height to reduce operator fatigue. 13, mechanical components always lubrication.

本产品的加工定制是是，种类是片皮机(大铲)，操作类型是全自动，产品类型是全新，品牌是JL，型号是420，用途是大张皮料片薄，产品别名是大铲，功率是3 (Kw)
