

# 振动流化床干燥机 名正机械

产品名称	振动流化床干燥机 名正机械
公司名称	江阴市名正机械有限公司
价格	面议
规格参数	建议零售价: 加工定制:是 品牌:名正机械
公司地址	江阴市镇澄路1388号
联系电话	13601521160

## 产品详情

物料自进料口进入机内，在振动力作用下，物料沿水平方向抛掷，向前连续运动，热风向上穿过流化床同湿物料换热后，湿空气经旋风分离器除尘后由排风口排出，干燥物料由排料口排出。 raw materials is fed into the machine from the inlet and moves forward continuously along with the horizontal aspect under the action of vibration.the hot air passes through fluidized-bed and make hot heat exchange with damp raw material. then the damp air is dusted by cyclone seperator and exhausted out from air outlet, the dry raw material is discharged through dischargoutlet. 医药化工；各种压片颗粒、硼酸、硼砂、苯二酚、苹果酸、马来酸等。

食品建材：酒糟、味精、砂糖、食盐、矿渣、豆瓣、种籽等。 还可以用于物料的冷却、增湿等。

pharmaceutical and chemical industries:all kinds of granular tablet and granule,boric

acid,borax,dihydroxybenzene,malic acid,maleic acid and so on; foodstuff and construction material

industries:less,monsodium glutamate,edible sugar,edible salt,mine residue,bean, seeds and so on: it can also used for raw materials to add up damp or cooling and so on;

物料受热均匀，热交换充分，干燥强度高，比普通干燥机节能30%左右。

振动源是采用振动电机驱动,运转平衡、维修方便、噪音低、寿命长。

流态化稳，无死角和吹穿现象。

可调性好，适应面宽，料层厚度和在机内移动速度以及振幅变更均可实现无级调节。

对物料表面损伤小。可用于易碎的干燥，物料颗粒不规则时亦不影响工作效果。

采用全封闭式结构，有效的防止了物料与空气间的交叉污染，作业环境清洁。 raw material is heated uniform, heat exchange is fully used and dry capacity is high. compared with ordinary drier, the energy can be saved about 30%.

the vibration is drived by motor.it is stable in operation and convenient in maintenance.low noise and long life. the fluidized state is stable, no dead angle and no phenomenon of broken out. it is good in

regulation and wide in suitability .the thickness of raw material layer and movable speed inside the machine and the amplitude can be adjusted. it is small for damaging the surface of raw material ,the equipment can be used for drying

raw materials that are easy broken.the drying effect can not be affected even if raw material have anomaly shape. it is effective to prevent from the pollution between raw material and air because the equipment adopts fully closed

structure.the environment of operation is clean.

本产品的建议零售价是¥0.00，加工定制是是，品牌是名正机械，型号是ZLG，适用物料是颗粒状，作用

种类是振动式，应用领域是医药化工，食品建材，物料的冷却、增湿等，流化面积是0.9 (m<sup>2</sup>)，装机功率是5.5~150 (kw)，产量含冷却是0.2~5 (T/h)，占地面积是5~100 (m<sup>2</sup>)，重量是800~15000 (kg)，规格是0.3 × 3
