## usb 3 ueye le - cost-effective and space-saving project camera

the perfect and cost-effectice volume camera: the usb 3 ueye le is available in a housed version with c/cs lens mount for a great choice of lenses, wide-angled lenses included. or alternatively, as the first proper single-board camera usb 3.0 with or without s-mount lens mount for most cost-effective lenses. thanks to its minimal size the le offers easy

integration and hence is the perfect component for embedded systems and apparatus engineering. the single-board version also offers excellent connectivity with its 8 pin connector for 5 v power supply, trigger, flash, 2 gpios and an i2c bus for triggering external devices. thanks to the same footprint as the usb 2 ueye le it's exceptionally easy to upgrade from usb 2.0 to usb 3.0 technology.

nir and e2v 2 megapixel models are available soon.
