产品详情

一流的技术设备，一流的生产配置。是现代企业必不可少的条件，也是制造优质产品的保证。飞卓以客户为导向，以研究和制造客户需要的、满意的为已任，把技术研究水平发挥得淋漓尽致。市场的竞争，也就是产品的竞争。 a first-class technical equipment, first-class production configuration. is essential for the modern enterprise conditions, also the manufacturing quality assurance. phaedra customer-oriented, customers need to research and manufacture want, satisfaction has been appointed, the technology level of play the most incisive. the competition of the market, it is the competition of the product. 我们追求的不仅仅是荣誉，更要求客户的认可。 we pursue of not only is a honor only, but also request the customer's approbation.

电缆浮球液位开关

产品说明

电缆浮球液位开关利用塑料射出一体成型，所以结构坚固，价格低，寿命长。对长距离、多点液位控制、沉水泵或含有粒状/块状杂质之液体之控制非常佳，当然对于一般性的液体亦可使用。此开关使用微动开关做接点输出，接点容量10a/250vac可直接起动电机设备；它可任意调节，易于操作，便于安装，安全可靠，免予维修。它对污水有抵抗作用，广泛应用于家庭、厂矿等的水池，油、酸和碱的池、桶、槽、罐等的容器中。在黏稠及悬浮物比较严重的场合得到广泛的使用！

cable float level switch

product description

cable float level switch uses one-step shaping injection molding with substantial structure, cheap price and long lifetime. it has very good control effect for long distance, multiple level control, submerged pump or liquid with grain or block. certainly it is also useful for normal liquid. it uses micro switch to make connection output. connection point

capacity 10a/250vac can start the motor equipment directly. it can be regulated freely and easy to operate, convenient to install, safe and reliable, without maintenance, non-toxic and environment friendly. it can resist sewage so that widely used in pool in resident, factories and mines ect., and ponds, barrel, manger and pot with oil, acid and alkali as well as the vessel with high viscosity and suspended substance.

本产品的加工定制是是，品牌是FEEJOY，型号是CF系列，类型是浮球液位开关，测量范围是定制，输出电流是2000~5000（mA），测量精度是1CM，工作温度是-30~160（ ），材质是PP，SUS304,SUS316L，电源电压是250VAC，，适用范围是污水，清水等等
