LQ1200型轮胎切割机

产品名称	LQ1200型轮胎切割机
公司名称	江阴市伟翔机械制造有限公司
价格	面议
规格参数	类型:自动裁断机 型号:1200
公司地址	无锡市江阴市祝塘镇云顾路工业园区
联系电话	86-51086393730 18036872730

产品详情

用途: 将整条轮胎切割成胎冠、胎侧和内圈。结构与原理: 该机由机架、转动机构、支撑架、刀具机构等组成。其基本原理为选择轮胎内圈为支撑点,将内圈制于支撑架。经支撑架的调节机构将轮胎牢固地撑紧于支撑架;通过减速传动机构获得低速运转;切割刀具安装于机械台面板,可根据需要任意进退刀。在轮胎低速运转的同时移动刀具,切入轮胎,即可顺利地将轮胎切开。为更顺利的切割和刀具的冷却,可配套水泵将冷却水直射切割点。技术参数: 型号(type) 电机功率(po 转速(revolvin 适应规格(fitte 外形尺寸(ove 重量(weight)

use: to cut the whole tire into tire crown, tire sidewall, tire bead, construction and principle: the unit consist of frame, rotate mechanism, porp mechanism and knift mechanism, it's principle is that select the tire bead as a prop point and place it on porp mechanism, then adjust it to tightly, start the machine in low speed by slow down transmission part; knift is setted on the machinery panel and it can be forward and back at one's ease, meanwhile the tire rotating in low speed, the knift cut into the tire to cut open it successfully, in order to cut the tire even smoothly and cool the knift, you can form complete set the water pump to inject water to the cutting point,

本产品的加工定制是是,类型是自动裁断机,型号是1200,裁断宽度是10(mm),主电动机功率是3(KW),品牌是伟翔,一次最大长度是650-1200(mm),送入速度是650-1200,裁刀转速是15(r/min),外形尺寸是1.2X1.4X1.3m(m),重量是600kg(kg)
