产品详情

型号	API铸钢固定球阀	品牌	兴达
材质	铸钢	连接形式	法兰
结构形式	固定球球阀	公称通径	500（mm）
适用介质	油品	压力环境	高压
工作温度	高温	标准	国标
流动方向	双向	驱动方式	电子
零部件及配件	阀体	用途	换向
类型(通道位置)	直通式	作用对象	锅炉

api铸钢固定球阀一、通用球阀用途 球阀在石油、天然气、煤炭和矿石的开采、提炼加工和管道输送系统中；在化工产品、医药和食品生产种；在水电、火电和核电的电力生产系统中；在城市和工业企业的给排水、供热、和供气系统中；在农田的排灌系统中；在冶金生产系统中得以广泛的应用，是一种与生产建设、国防建设和人民生活息息相关的重要机械产品。球阀密闭在各类管路系统中用于截断或接通介质流，使介质按照预定的程序输送到各个指定点。二、主要零件材料及性能阀体 阀杆 阀球 密封面 垫片 填料 工作温度 适用介质wcb 1cr13 1cr13 1cr13

产品广泛用于石油、造纸、水电、食品、医药、轻纺、冶炼、污水处理、矿厂、化工、高层建设、给排水等工程，行销国内外各大、中、小城市，深受广大用户的信赖和好评。热忱欢迎新老客商前来洽谈。联系电话：0595-86183997.移动电话13860769497

fujian xingda valve manufacturing co., ltd is located in the west coast of the strait economic zone of chinese famous faucet hometown - fujian quanzhou verdant town, hebron with taiwan sea, it is domestic production base of three plumbing valves, resource advantage is remarkable. company specializing in the production of american standard, germany standard, british standard, japanese standard, gb series standard valve, leading products: gate valves, butterfly valves, ball valves, check valves, globe valves, flexible ware, hydraulic control valves, filters, rubber joint etc various specifications (dn40 - dn4000) valve, can also according to customer"s requirements. independent research and development of the water supply and drainage valve series of similar products in the country in a leading level, water

double wedge gas storage butterfly valve, cut-off valve, cut-off valve double hemisphere water fills the domestic blank. as an iron and steel enterprise, dealing not many brilliant speech, we only follow is: huanwei customers" needs, strives for the survival by the quality, seek development by innovation, to management for efficiency. with the first-class quality, the best price and high quality service, repay masses of users, realization and customer genuine "win-win". warmly welcome domestic and international manufacturers to visit our company, technical communication, negotiation and cooperation.
