

ABB差压变送器 ABB

产品名称	ABB差压变送器 ABB
公司名称	广州普拉都达智能技术有限公司
价格	面议
规格参数	品牌:ABB 型号:265DS
公司地址	广州市天河区中山大道中路282号东圃商业大厦A座702室
联系电话	86-02022223379-1 13318876729

产品详情

model 265ds is a differential pressure transmitter with a selectable maximum working pressure of up to 41mpa, 5945psi. it is a reliable sensing system using the very latest digital technologies, providing a large turn down ratio up to 100:1. the user has a comprehensive choice of sensors, as is therefore able to optimize in-use total performance and stability. configuration is provided via local keys combined with lcd indicator or via hand held terminal or pc configuration platform.

- base accuracy : $\pm 0.04\%$
- span limits – 0.05 to 10000kpa; 0.2inh₂o to 1450psi
- true draft range and ultra performance transmitter
- 5 – year stability
- multiple protocol availability – provides integration with hart[®], profibus pa and foundat

ion fieldbus platforms offering interchangeability and transmitter upgrade capabilities

full compliance with ped category iii~

本产品的加工定制是否，品牌是ABB，型号是265DS，类型是智能差压变送器，测量介质是碱性，测量范围是0.05-10000（kPa），精度等级是0.04%，输出信号是0.1（mA），电源电压是220（V），工作温度是60（ ），属性是变送器
