

索立得微型投影仪 SP-W500 DLP mini projector

产品名称	索立得微型投影仪 SP-W500 DLP mini projector
公司名称	深圳市福田区赛格电子市场誉园经营部
价格	面议
规格参数	类型:mini手持投影仪 品牌:索立得
公司地址	中国 广东 深圳市福田区 深圳市福田区华强路赛格广场10楼10c17
联系电话	86 0755 83007952 15818621020

产品详情

索立得微型投影仪 wifi迷你手机投影仪 led家用3d高清投影机w500美国德州仪器dlp，最强光机；50流明；支持无线wifi连接手机、平板电脑；支持3d高清影院便携式投影仪；锌合金材质，自行散热，无需风扇，低噪音、低功耗；播放时间长；还是一款移动电源；家用娱乐、旅行游玩及出差办公首选神器

w500卖点介绍：

一.w500：相对买点：1，大体上支持所有的主流媒体视频格式（万能播放）即插即播放（本地播放：傻瓜式：tf卡 u盘）

二．外壳采用锌合金材质，更有质感，更利于机器自身的散热（设计本身是为了导热，个别客户会认为是：过热，或者是发烫：工业的安全温度45度内，工程测最高温度38~39度，人体的正常温度37度，多高1~2，个人感觉会有点热，属人体正常感觉！

三．wifi功能：1.可无线连接手机，电脑，（电脑只需下载客户端软件ezview就可实现完全同屏）！2.投影仪除只是发生局域wifi信号外，还可室内无线路由器，并实现投影画面的上网浏览！

采用欧司朗精选led灯芯，采用美国德州仪器dlp的光机技术，完美揉和2500毫安内置锂电，内置wifi发射

与接收功能，实现便携投影！

this mini projector is the perfect gadget for your wifi compatible mobile device or laptop. the compact projector is easily connected via wifi and projects all kind of media on a screen size up to 150 cm (80 "). simply connect, play and enjoy your private movie show. the used dlp chip, known from great cinema projectors, provides rich colors and high contrasts. the internal battery can also be used to charge your mobile phone. it can play video or music in your micro sd also. thus, mobile cinema a50p not only an ultra-compact pico projector, but also a powerful battery bank makes this gadget really unique. features: display technology: ti dlp technology resolution: ~640 x 360 (nhd) projection image size: 10"~60" (diagonal) focus: manual brightness: 50lm (max) a/v i/o port: audio out (3.5mm) micro sd card wifi standard: ieee 802.11 b/g/n (plug-in) wifi connection: ap mode: point-to-point client mode: internet access (through wifi router) free supported apps: - ez display & ez control (windows/mac os) - ez view (android, ios) "supported features from free app: mirror/extend mode (pc projection) video/music/photo playback splitter display (x1, x2, x4) document display/drop box display/ live camera/internet access (supported by ez view only) supported video format: avi, divx, mky, dat, vob, mpg, mpeg, mov, mp4, rm, rmvb, wmv supported music format: mp1/mp2/mp3, wma, ogg, wav, acc supported photo format: jpeg, bmp battery charger: usd dc-out (5v/1.5a) battery: embedded 2500mah lion battery battery life: msd card mode: 90 min wifi mode: 60 min "speaker: 1w remote controller: yes (ir remote controller) dimension: 146*74*17 mm weight: 265g package include: ac power adapter, pouch, remote controller, cd, user's manual, cellphone charger cable.

01 concerned about -brightness in projector industry , the brightness called " lumens " ; abbreviation (lm) lm luminous flux units. luminous intensity of 1 candela (cd) the point light source , the light flux emitted in a unit solid angle (1 steradian) within the " one lumen "

anti- cheat reminder: currently the world 's micro- light projector (projector lamps) largest producers put into use 80 lumens, imagine, standard mini projector market hundreds of lumens , and even some more exaggerated play word games with buyers, labeled with 1000 lumens next , this figure is definitely better than 1000 lumens 80 lumens figure look better, but not necessarily easy , as we all know . "impractical meaning " of the word ; much explanation.

light machine manufacturers : depends on the quality of lumens of light machine itself ; currently produces light machine manufacturers have yang ming , broadview , huayang , red butterfly , anwar , sunnic etc., and young optics optical drive is the world's largest manufacturer of dlp patents , under the strong optical research hair, you can search on baidu : strong photoelectric see information ; broadview -ray machine is currently the dlp patent license excellent manufacturer. optical technology : dlp optical technology : a high degree of color reproduction , lifelike lcos optical technology : low color reproduction , the effect of distortion

02 concerned about -material currently in the projector market, mostly using a shell material abs + pc material , zinc alloy, aluminum, magnesium alloys and other materials ;

zinc alloy cooling effect is better than abs + pc material , because the heat of the zinc alloy is better, without the help of a fan to dissipate heat , thus reducing the power consumption and noise machine itself , while abs + pc material make products shell (commonly known as plastic) requires the use of a fan cooling, the housing itself is easy to fall damage , no texture.

03 concerned about -life time the same mini projector lumens , lower power consumption , heat better, longer life time , as this is a miniature projector most critical core technology.

本产品的加工定制是否，类型是mini手持投影仪，品牌是索立得，型号是SP-

W500，投影方式是正投，分辨率是640*360DPI，功率是10（w），投影画面尺寸是200（cm）
