## 产品详情

jzl-x2衣物消毒柜jzl-x2clothing disinfection cabinet

主要技术参数main parameters:

|                             |                    |
|-----------------------------|--------------------|
| 参数specification             | jzl-x2             |
| 电源规格electrical source       | 220acv/50hz        |
| 消毒时间time                    | 1-30分钟任意设定 1-30min |
| 功率power                     | 200w               |
| 外形尺寸size                    | 620x850x1700mm     |
| 每次效益the each time effective | 20kg               |

简要说明：该机采用高效医用紫外线、臭氧相结合的消毒方法，即对服装采取了紫外线照射的传统消毒，结合臭氧消毒，使重叠的服装均能达到消毒的效果，弥补了紫外线被遮住或照射不到的地方不能杀死细菌的缺陷，提高了消毒、灭菌效率。该机能有效的杀灭服装上各种致病微生物，包括细菌繁殖体、芽孢、分支杆菌、病毒、真菌、立克次体和支原体等。

short introduction:

this machine uses the method of the efficient medical uv and ozone disinfection are combined, taken the traditional ultraviolet radiation disinfection of clothing, combined with ozone disinfection, so that the overlap of clothing can be able to achieve the effect of disinfection, it can make up for the defect that where the uv was covered or not exposed to the bacteria can not be killed, improve the efficiency of disinfection, sterilization. the machine can effectively kill a

variety of pathogenic microorganisms on the clothing, including the multiplication of bacteria,spores, mycobacteria,viruses,funghi,rickettsia,mycoplasma and so on.

本产品的材质是烤漆，类型是消毒，品牌是金挚莱，适用机械是消毒柜，型号是JZL-X，规格是单门,双门，销售地是广州，销售类型是厂家直销，产地是上海
