

# 全自动粘合机 压烫机 压胶设备

产品名称	全自动粘合机 压烫机 压胶设备
公司名称	中山市澳大机械有限公司
价格	面议
规格参数	加工定制:否 种类:压烫机 用途:压胶设备
公司地址	广东广州市白云区石井
联系电话	86 020 29176609 13924931415

## 产品详情

特点：

品质好效率高：连续粘接式作业，生产效率高，强力汽缸加压，粘合后的衣料平整牢固，耐洗涤，不易起皱；

皮带自动修正：自动皮带修正装置确保皮带不偏离，防摺滚筒可处理各种布料；

加热温度均匀：专业器件智能控制温差至最小，加热系统传热均匀；

冷却快定性佳：配备网带输送系统，冷却速度快，布料粘合定型效果好；

自动皮带清洁：自动翻转拨片彻底清洁皮带；

产品稳定性强：设有自动延时停机装置和突停电手动保护铁氟龙带，增长皮带寿命.

用途

适用于各种毛/棉/麻/及多种合成布料粘合高温衬与低温衬料，对小面积布料进行预收缩定型或烘干。

straight linear fusing press machine

performance characteristice

the quality ' s good efficiency is high:glue connect type homework in a row, produce an efficiency high,the strong dint cylinder adds to press,gluing clothing material after matching neat and firm,

the leather belt revises automatically:the automatic leather belt revises device to insure leather belt not to deviate,defending the crease roller can handle various cloth;

heat temperature even:the professional spare part intelligence controls a difference in temperature to go to least,heating system to transmit heat even;

cool off quickly sex certainly is good:providing with the net takes to transport system,cooling off speed quickly,the cloth glues to match already set effective;

the automatic leather belt sweeps:the auto is thoroughly inside out to stir a slice to sweep leather belt;

the product stability is strong:establishing the auto shut down to equip and had a power fail to move;protection iron fluorine suddenly a dragon to take when establishing the auto postponed,increasing leather belt life span;

use

be applicable to various hair/cotton/hemp/and the variety synthesize a cloth to match heat to assist to anticipate to assist with low temperature to anticipate,carrying on preparing constringency already set or drying to the small area cloth.
