

接线机 铜带机中山铜带机

| | |
|------|-------------------------------------|
| 产品名称 | 接线机 铜带机中山铜带机 |
| 公司名称 | 中山市华电自动化设备有限公司 |
| 价格 | 面议 |
| 规格参数 | 加工定制:否 类型:端子压接机 品牌:huadian/华电 |
| 公司地址 | 中山火炬开发区集中新建区31栋 |
| 联系电话 | 0760-88283661 13715571716 |

产品详情

连续接线机:

本机专业针对需要铆合加工的线材所设计；压着铆合，连接线材，取代传统的焊锡方式，没有冷焊，空焊及空气污染的缺点，为通过各种安全规格测试（ul，jis）最简易有效的方式。人性化设计，操作简易。采用特殊连续式铜带端子。材料经切断、成型、压着一次完成，迅速且无废料产生，节省成本。铜带端子经特殊纹路处理，铆合后耐力特强，品质稳定。配备直/弯模座供不同产品连接之用。continuous connection machine:for the needs of the professional riveting machine for processing wire by design;crimping riveting, connecting wires, replace the traditional soldering, no cold welding, air and air pollution in welding defects, for a variety of safety tests (ul, jis) the most simple and effective way.user-friendly design, ease of operation.continuous use of special copper terminals.materials by cutting, forming, pressing one time, quickly and without waste generation and cost savings.copper terminals with a special texture processing, riveting exceptionally strong after the endurance, quality and stability.with straight / curved mold base used for the connection of different products.huadian more please go to our website!
