

EMC CLARiiON CX4-120 Networked Storage System

产品名称	EMC CLARiiON CX4-120 Networked Storage System
公司名称	深圳市众联达科技有限公司
价格	面议
规格参数	品牌:EMC 硬盘盘位:15 支持RAID级别:RAID6
公司地址	深圳市宝安区龙华街道共和花园C3栋至C4栋2号 商铺（办公场所）
联系电话	0755-88856228 13510114336

产品详情

emc clariion cx4-120 networked storage system

emc clariion cx4 model 120 provides entry-level networked storage for departmental applications or for midsize organizations. clariion cx4-120 combines the clariion proven 99.999 percent availability with innovative technologies like virtual provisioning, 64-bit operating system, and multi-core processors. the cx4 model 120 scales from 5 up to 120 tb of capacity.

dual protocol support with fc and iscsi as the base configuration on all modelseasy, online expansion via hot-pluggable i/o modulesability to easily add and/or upgrade i/o modules to accommodate future technologies as they become available (i.e., 8 gb/s fc, 10 gb/s iscsi)efficient tiering that improves capacity utilization and optimizes tiering capabilities across all drive typesease of provisioning that simplifies and accelerates processes and delivers “ just-in-time ” capacityallocation and flexibilitycomprehensive monitoring, alerts, and reporting for efficient capacity planningsupports advanced capabilities including virtual lun, navisphere qos manager, navisphere analyzer, and snapview
