

礼品型移动电源 太能充电器 手机充电器 手机移动电源 苹果充电宝

产品名称	礼品型移动电源 太能充电器 手机充电器 手机移动电源 苹果充电宝
公司名称	深圳舜唐科技有限公司
价格	面议
规格参数	加工定制:是 品牌:舜唐 型号:TY15
公司地址	深圳市宝安区石岩街道应人石社区天宝路256号 香象工业园5栋6楼
联系电话	13420980925

产品详情

业务合作

潘先生 18665910315 qq : 979314642

罗先生 13699893588 qq : 2648544710

鲁先生 13728871681 qq : 243829386

产品主要技术参数：

型号	ty-15
太阳能板	非晶硅
太阳能板功率	0.7w
输出电压，输出电流	4.7w
内置聚合物锂电池容量	5 ~ 6v , 300 ~ 800ma
外壳材料	2600 ma · h(根据顾客需求可以定做)
	铝合金
充电电压	ac100v ~ 240v
尺寸	120 × 72 × 10mm
重量	由电池容量和太阳能板的种类决定
充电指示功能	有指示功能
指示灯	led灯
接口	usb

颜色

银, 蓝色, 黑色, 红色, 金色

备注:多晶硅价格会比非晶硅贵, 单晶价格比多晶和非晶都贵。(此款默认为非晶硅)

ty-15 太阳能充电器 solar charger

unit size/产品尺寸: 95 × 42 × 10mm

product weight/产品重量 : 110g

solar panels types : polysilicon

使用说明: 市电给内置锂电充电: 指示灯显示为绿灯, 约6-7小时可以充满, 指示灯熄灭表示电池已充满
太阳能给内置锂电充电: 将太阳能充电器放置于阳光下就可以给内置的电池充电了。红灯亮表示正在充电, 在阳光下约10-15小时可以充满. 因阳光强弱而稍有差异。太阳能充电器给数码产品充电: 内置锂电池充满后, 用充电连线将太阳能充电器与手机或数码相机、mp3、mp4等数码产品连接好就可以充电了。充电时, 指示灯显示绿色, 表明充电正常。

本产品适用于下列产品充电手机(诺基亚/索爱/摩托罗拉/三星)pdamp3mp4(内置可充电电池容量须小于1000ma)摩托罗拉蓝牙耳机

注意事项: 内部设有保护电路, 当出现过载, 短路时保护电路动作, 输出就没有电压了, 解除保护的方法有二:
1, 用市电ac100-240v充电数秒2在阳光下晒一下. 这样就可以恢复输出

specification:

solar panel: 0.7w charging current: 140ma

ac input: ac100v - 240v

built-in lithium battery: 2600 or 1500mah output voltage 5.5v

output current: dc300-800ma

product dimensions: 120x73x10mm

packaging size: 166x116x50mm

gross weight: 310g

color: 5 color optional (silver, black, blue, red, orange)

features:

1. especially suitable for emergency situations

when you work in the field or travel, or experience a power failure, solar charger will help you a great favor to your mobile phone anytime, anywhere to keep working condition. the solar mobile charger is the ideal backup power supply for business trip, travelling, long distance journey, wildness working.

2. easy to use

you can recharge your mobile phone or digital devices anytime, anywhere.

3. high efficient recharging

to recharge your phone 60 minutes, get 100-150 minutes of talk time

4. green energy

usage of solar energy can make your contribution to environmental protection.

5. easy to carry

stylish, small case, convenient to carry

6. use of safety

have overcharge protection an overload protection, to effectively extend battery life of your phone.

application:

1. handset (standard configuration with samsung or ericsson)

2 dv

3. pda

4. mp3

5. mp4

6. psp, pda

7 bluetooth headset (with built-in rechargeable battery)

usage:

recharge to built-in lithium battery

method1

when recharge the lithium battery by electric supply (ac100v-240v), the indicator light turns green. and it takes about 8 hours to recharge fully the battery. when battery is full, the indicator light goes out.

method2

putting the charger toward the sun, the solar panel begins to recharge the lithium battery, and the green indicator turns on. it takes about 10-14 hours for fully charge.

recharge the digital devices by solar charger

when the lithium battery is full, it can charge mobile phones, digital camera, mp3, mp4 and other digital products. choose the suitable output voltage; connect the charger with mobile phone and other digital products. then it begins to charge. meanwhile, the indicator light turns red.

trouble shooting:

protection circuit is designed. when overload and short circuit happens, the voltage output will be cut down. to unlock the protection, recharge the solar charger by electric supply or put the solar panel toward sunlight for few seconds

本产品的加工定制是是，品牌是舜唐，型号是TY15，蓄电池容量是1500（mAH），输出电压是5（V），输出电流是800（mA），充电时间是5（H），应用范围是手机，产品认证是CCC
