

## 珍珠棉填充生产线,Ball fiber pillow filling machine

产品名称	珍珠棉填充生产线,Ball fiber pillow filling machine
公司名称	青岛泰可西勒自动化设备有限公司
价格	面议
规格参数	加工定制:是 品牌:泰可西勒 种类:非织造布单机设备
公司地址	青岛市黄岛区黄张路南大殷村东
联系电话	18661815240

## 产品详情

型号	tc003	产量	100-120kg
电压	380v 50hz 3phase	规格	10850mm*1620mm*3000m m
功率	19.20kw	重量	2350kg

- 1.该生产线主要是将涤纶短纤维制作成珍珠棉球并填充到枕头、靠垫等产品中
- 2.适用纤维材料：3d、7d、15d加硅涤纶短纤维
- 3.珍珠棉球机采用多辊成球原理，制作出来的珍珠棉球颗粒均匀、蓬松、弹性好、手感柔软；填充出来的产品饱满、平整、回弹力好、不易变形
- 4.定量功能，误差可控制在约30g
- 5.自动化程度高，采用plc程序控制、触摸屏输入、进口料位传感器自动控制加料，整条生产线只需要两个操作工人，节省人工成本
- 6.自动夹具套装，对操作工人无专业技能的要求，减少对操作工人的依赖性
- 7.配电按照《国际电工标准》，符合欧盟，北美及澳洲安全规范

- the ball fiber filling machine line is mainly used for polyester fiber producing and filling into pillow, cushion and sofa etc.?

- it is assembled by one balling machine unit, fiber transporter and silo, one filling device.?

- the whole line is controlled by plc system that can be handled by 2 operators; one of them works for raw material feeding and another for the filling device.?
- raw material works directly to the ball fiber machine that can be 3d, 7d and 15d conjugate siliconized polyester fiber; 32mm fiber works also.
- by 2 pin balling roller, the finished fiber ball is more elasticity, good hand feeling and beautiful; without hurting the silicon.?
- the fiber ball size can be adjusted from the control system according to the processing time.?
- the filling weight can be controlled by the weighing system with tolerance about 30g each.?
- the key parts are adopted by the most famous world brand such like siemens, omron and schneider.?
- professional roller balance processing;?
- automatic clamp and simple operation, so that no special skill requirement for the operator.?
- different safety standard can be ordered according to the customer ' s requirement against the local condition.?

本产品的加工定制是是，品牌是泰可西勒，种类是非织造布单机设备，型号是TC003，应用领域是家纺，玩具，枕头，靠垫，座垫，床垫，抱枕
