产品详情

有机胺酯TPP

产品简介：

TPP水性多功能助剂属甲基醇胺酯类阻垢缓蚀剂，配置光学玻璃清洗剂、无泡喷淋清洗剂、除黑炭、具有分散及溶解金属表面氧化皮双重作用，使金属表面更光泽、又是一种低味、低挥发的有机胺化合物，对酸性除锈清洗剂也有很好的缓释作用！

典型特性：

- 1、组 成： 胺酯类有机物
- 2、外 观： 无色或黄色透明液体
- 3、有效成份： 96%
- 4、PH 值： 7-9
- 5、HLB值： 易水溶性有机物质HLB值比较灵活！属于两性表面活性剂！水包油型产品！
- 5 水溶性: 易溶于水

独特性能：

- 1、氨水或其他碱性胺类物质的替代品；低味、低毒、低磷、具有调节PH值作用，用途相当广泛！

2、能与铁、铜、锌等多种金属离子形成稳定的络合物，能溶解金属表面的微观氧化物，提高清洗过后金属表面的光泽度！对酸性除锈有良好的缓蚀作用，在高或者低PH下仍很稳定，不易水解，不易分解。当和其他表面活性剂复配使用时，表现出其他两性表面活性剂不具备的协同效应

3、由于有机胺酯的无泡特性,更多用户用于无泡或低泡喷淋清洗，市场应用表现优于更多无泡表面活性剂！

使用建议：

1、建议用量3-10%（质量比）；

2、也可根据不同的配比决定适当提高使用比例，（例如：玻璃清洗剂；研磨粉清洗）等

包装与贮存：

1、230公斤塑料桶 本品为非易燃易爆易腐蚀危险品，储存于5-40 通风干燥环境

2、避免强酸、强碱、强氧化物共存，用后应密闭容器避免与空气接触氧化影响使用效果和引起色差

3、密封有效期12个月

无关外延：

The mayfly nodded and asked, "Really? Then, are you happy now?" "Yes, I am very happy," replied the oak tree.

Then the mayfly smiled and said, "I am very happy, too. Although I get to live only one day, it doesn't matter. You get to live much longer than I do, but we are both happy, aren't we?" The oak tree and the mayfly kept on talking to each other.

Eventually, the mayfly leaned on the oak tree and fell asleep. "Mayfly!" The oak tree called the mayfly, but the mayfly did not respond.

It had died. "Mayfly, have a happy dream." The oak tree blessed the mayfly for the last time.

Many weeks then passed. Spring, summer and fall went by, and winter came. Finally, the long-awaited day of Christmas came. The oak tree wanted to rest now.

The oak tree had a dream on Christmas day. In it, pretty flowers were abundant and butterflies were flying in a green forest. In this dream, the oak tree met the mayfly. The mayfly said, "Come play here. It is such a happy place." The oak tree was very pleased indeed to see the mayfly.

While the oak tree was sleeping, its roots were cut. It was time for the oak tree to die. The oak tree went to a happy world, dreaming.
