

# 环保节能立式双门真空磁控蒸发镀膜机

|      |  |
|------|--|
| 产品名称 | 环保节能立式双门真空磁控蒸发镀膜机                              |
| 公司名称 | 广东中环真空设备有限公司                                   |
| 价格   | .00/个  |
| 规格参数 | 品牌:ZHONGHUAN<br>型号:ZZD-Series<br>规格:ZZD-Series |
| 公司地址 | 广东省肇庆市厂排街一巷                                    |
| 联系电话 | 86-07582848078 13822628664                     |

## 产品详情

|    |                |      |                                    |
|----|----------------|------|------------------------------------|
| 品牌 | ZHONGHUAN      | 型号   | ZZD-Series                         |
| 规格 | ZZD-Series     | 产品别名 | vacuum evaporation coating machine |
| 用途 | 艺美术、装璜装饰、玩具等领域 | 适用行业 | 预外理的塑料、陶瓷等制品表面蒸镀金属薄膜、仿金膜           |

真空镀膜机是电阻加热式蒸发镀膜设备，主要用在已预外理的塑料、陶瓷等制品表面蒸镀金属薄膜、仿金膜，从而获得光亮美观、价廉的塑料、陶瓷表面金属化制品。广泛应用于工艺美术、装璜装饰、玩具等领域，本机具有独特的双门结构，使工件及镀料的装卸与镀膜同时进行，能有效地提高工作效益。

heating evaporation coating technology of japan in the 90s ' be adopted in the equipment, which is used for coating different film such as metal film, goldlike film on the surface of plastic and ceramic. the equipment is widely applied in handicrafts, ornaments and toys etc. special double chamber designed in the coating system, some material can be plated in a chamber when some material was being changed in other chamber, so processing efficiency of the coating system is upgraded.we could design detail of machine by requirement of each customer.
