酒红火漆蜡 封蜡 石蜡 请帖火漆蜡 欧美火漆印原料

产品名称	酒红火漆蜡 封蜡 石蜡 请帖火漆蜡 欧美火漆印原料
公司名称	江门市蓬江区华洋蜡业有限公司
价格	面议
规格参数	材质:封印蜡原料 规格:火漆蜡 产品类别:印泥
公司地址	江门市蓬江区幸福路8号
联系电话	0750-3612862 13172288588

产品详情

据记载,用火漆(别名:封印蜡,封蜡,火漆蜡,火漆腊,封口漆,封口蜡,火漆戳,火漆印,火漆封印,火漆蠟條/封蠟條,其英文是seal wax,wax seals stamp, wax seal 或 sealing wax,ふうろう、シーリングワックス,火漆蠟,封蝋, seal wax,wax seals stamp, wax seal , siegellack,cire a cacheter, segel lilin, to short in the vosku,zegelwas,zegellak,sinettivaha,m ü h ü r mumu,sigillack,pecs é tvias z,t short in the vosku,selo de cera,sello de cera,pecs é tviasz,sigillo,ni ê m phong s á p,s á p ni ê m phong。*各国叫法不一样,多从sealing wax引申*华明标注)对信封封口,大约16世纪开始欧洲兴起。

而中国早期曾使用"木牍"传递信件。木牍即是在木板上写好字,再用绳子在上面捆绕3圈,并穿过方孔 ,把木板缚牢。为了防止泄密,寄信者在木板外封上黏土(即最早的火漆雏形),盖上印章。

之后,中国发明的火漆由印度传入欧洲,很快就成了欧洲贵族保守通信秘密的法宝。他们对火漆色泽进行调整,再选用合适图案的金属模,印在未凝固的火漆上,冷却后即留下清晰牢固的图案。一旦盖上火漆印,即意味着除收件人外,其他人都不能妄自拆开或偷窥信件。这个火漆印章,亦通常随着拥有者的离世而毁灭。火漆印也是政府公文或皇帝诏令必然的过程,作用一样是以防泄密。像我们在电影中"加勒比海盗"、"暮光之城"、"哈利波特"等所看到的火漆密封信件并加盖家族印章。

火漆通常的形式为火漆棒(传统火漆),但有些是带芯的火漆,以及火漆颗粒。需要使用时,火漆棒切一小块置于小汤匙,加热融化后倒入在需要的信封口上,即可盖章。

因为普通的火漆印容易在寄信过程中受损,且多数国家邮政系统都采用分捡机,所以对火漆提出更高的要求,现代技术也使传统火漆得到进一步提高,江门市华洋蜡业有限公司一直致力于火漆的生产和研发,让火漆带来更先进的技术。除了传统的火漆,采用欧美纯正火漆配方,经十多年的开发,现有传统火漆,带芯火漆,无芯封印蜡,胶枪用蜡棒等产品。颜色有红、黄、蓝、绿、紫、黑衍生的各种深浅颜色以及镭射、多彩色。我司亦可根据客户要求订制颜色,以及直接做成火漆印章成品,火漆封蜡章。

我司生产的华明牌火漆封蜡采用进口原料制作,具有以下特性:一、产品无毒,无公害,严格符合fda标准;二、色泽纯正,光泽度高,长期不裉色;三、成膜均匀,遮盖力强,附着性好;四、韧性佳,气密性好。火漆供应国内一些特殊行业海关、安全、银行、保险、司法、律师等部门以及烟业包装防伪、酒业包装防伪、茶叶业包装防伪、化妆品包装防伪和高档工艺品及礼品、文具、日用品、工艺礼品、请柬上使用,并出口多个国家,成为火漆蜡亚洲最大的出口商之一。

火漆封蜡,是欧美传统葡萄酒企业普遍采用的最能体现葡萄酒饼文化和品位的包装形式。本品是采用欧美封蜡配方生产配制是纯正的欧美火漆封口蜡,成品表面光滑,粘附性强,易与玻璃物体表面形成密封,在外力作用下不易断裂。因此其技术含量和产品附加值高,具备国际一流品质。

我们现在用蜡棒作为替代有芯火漆蜡。其优点是几个。1。无需明火。

- 2。颜色可供选择,可定制。
- 3.量可以控制,做出的成品封蜡章外溢的蜡圆润,圆滑。

欢迎各客户莅临我公司参观指导。如有需要请与我们联系。我们将竭诚为每一位客户服务!

火漆使用:

一、让火漆置于小勺子,使其熔化。二、然后让火漆倒在需要密封的信封上。三、盖章即可。

本公司长年提供生产、代加工火漆,可根据客户的要求来设计产品造型、颜色调整。欢迎来电咨询!

the original source for sealing waxes, wax seals & wax seal stamps, wedding wax seals,

monogram wax seals, custom logo wax seals, initial wax seals, symbol wax seals and

timeless writing accessories imported from all over the world!

火漆使用:

一、让火漆置于小勺子,使其熔化。二、然后让火漆倒在需要密封的信封上。三、盖章即可。

the history of sealing wax

sealing wax actually originated when envelopes did not come with glue on the flap that made it

difficult to seal and thus ensure privacy. to solve this problem, a lit candle was tipped over

the envelope, allowing a few drops of wax to fall on the flap 's side and that was stamped with an inscribed stem, which was called a seal.

in days of yore this was a method used to ensure that the communication sent was secure and

authentic. unfortunately it was the coming of the gummed envelopes that led to a decline in

the use of sealing wax, though the ones who are fascinated with it still find an excus e to melt the wax!

the recipes of sealing wax can be generally divided into those before and after the begin ning of trade

with the indies. beeswax that had been melted together with venice turpentine was typically used in

the middle ages to make sealing wax. the wax that was manufactured at this time was uncolored.

it was after some time that vermilion was used to add some color. it was in the 16th century

that sealing wax was compounded from a mixture of various proportions of shellac, resin, turpentine,

chalk, plaster, turpentine and coloring matter and no actual wax.

sealing wax today

with the changes that have been wrought in the world, new styles of sealing wax known as

faux sealing wax has entered the market. this wax is slightly rubbery and can bend

without breaking. round sealing wax sticks that fit into standard size glue guns are also available.

wax seals can be obtained in a range of designs covering initials to animals, flowers, religion and

a range of other things.

sealing wax today is used to for scrapbooks, to decorate certificates and to seal envelopes when

sending out invitations.

我公司生产的品种多且系列全。多年来一直从事此系列产品的生产出口和供应国内一些特殊行业的安全防伪使用。颜色可根据客户要求订制。

欢迎各客户莅临我公司参观指导。如有需要请与我们联系。可免费寄样。
