产品详情

product

tile leveling clips are part a of a two-part installation system engineered to level, align, space, and hold large body porcelain tile, marble and stone during installation. this part of the system works by automatically aligning and spacing tiles. the wedge part b of this system (sold separately) works by maintaining tiles at an even height until the mortar sets, thereby ensuring the resulting surface is level and free of slippage. the system is used by professionals to save time while providing level and consistently spaced results.

first part of a 2-part system to level, align, space, and hold porcelain tile, marble and stone during installation

use with part b of 2-part system (not included)

use on tiles up to 1/2 in. thick

produces 1/16 in. grout joint, up to 1/4 in. when combined with traditional tile spacers

anchor design keeps tile level throughout installation

addresses variations in thickness

small holes allow mortar to disperse evenly to eliminate potential voids

member tested and recommended by the handyman club of america

specifications

assembled depth (in.) 1.25 in assembled height (in.) 1.563 in

assembled width (in.) 1.063 in flooring product type tile tool

manufacturer warranty to be free from manufacturing defects

material nylon

product depth (in.) 1.25 product weight (lb.) .005 lb

本产品的材质是尼龙，产地是浙江，品牌是东华，用途是找平器
