

# 提供通信设备产品设计 机箱机柜设计 结构设计 手板模型制作

产品名称	提供通信设备产品设计 机箱机柜设计 结构设计 手板模型制作
公司名称	华泽时代科技（北京）有限公司
价格	面议
规格参数	设计类型:通信产品设计 加工定制:是
公司地址	北京市怀柔区雁栖经济开发区乐园大街38号
联系电话	13718236450

## 产品详情

华泽时代科技有限公司专业从事工业产品抄数测绘，产品概念设计、造型外观设计、逆向工程(抄数)设计、结构设计、模具设计制作、手板样机（cnc手板、快速成型）、五金制作的专业公司。

公司通过实现经营管理体系，始终为客户提供技术领先、性能卓越、品质一流的工业设计、手板模型制作，精密模具和产品等一站式服务。

公司自成立以来，坚持以精确、创新、进取、快速为原则，公司以产品设计制作、机械科技加工成型和模具制造为核心，以提供全方位的技术服务。开发玩具、礼品、电器、通讯、传媒、汽车、摩托车、医疗仪器等产品领域，包括经营：3d产品外型、sla快速成型、结构设计、各类机壳手板制作、玩具外形石膏、油泥雕刻、结构牙箱制作，提供cnc批量塑胶件加工制作，各类非金属材料及铝合金铜材料产品零件加工。

公司采用全国最先进的快速制作工艺，以及最先进的精密型cnc加工中心，广泛使用多种材料诸如：塑胶类(abs、pmma、pc、pvc、pom、pp、pet、尼龙等)，金属类(铝镁合金、铜、铁、不锈钢等)，快速高效为您提供外形精致，内在精准的产品。

多年历练的专业实力团队将为您提供完善的整体协作开发生产制造服务.公司拥有优秀的技术人才团队及先进的技术设备，每个产品的诞生都赋予了我们团队的力量和创新的精神，以严谨的态度，注重精益求精为客户设计制造完美的产品.品质一直是我们的赖以生存的源泉,品质源于细节，细节成就完美！质优价廉也一直是我们的追求，我们力求与您携手共赢！

1. 工业设计：各类工业产品的外观造型设计、结构设计、塑胶及金属模型设计

2. 模型制作范围包括：

a 数码通讯产品：数码相机、笔记本、电话机，传真机，复印机，打印机、掌上电脑、dv、mp3 / mp4、显示器、机箱、对讲机等 b

交通产品：车身、车灯、车门、空调面板、仪表盘等、航空飞机配件等 c

医疗保健设备：医疗设备、健身器材、b超检测仪、麻醉机、血糖仪等 d 电子电器产品：空调、影碟机、微波炉、吸尘器、液晶电视、多媒体音箱读卡器、打印机、复印机等 e

动漫产品：动漫周边模型、卡通人物、游戏人物模型

、仿真人物雕像、卡通公仔、世界影视明星雕像等 f 金融安保产品：摄像机、取款机（atm）、循环自动柜员机（crs）、自助查询机、自助缴费机，报警器，红外探测器，发射器，收射器，前端摄像头等。

g 电子产品测试工装夹具等。

h 提供学生模型，学生毕业设计！三维建模．外观结构设计

3. 各种塑胶手板、橡胶手板模型制作4. 各种铝镁合金手板、金属手板模型制作5. 平面（2d）转三维模型（3d）设计

6. 工业参展样品和快速硅胶模小批量复制品。

7. 提供塑胶模具、五金冲压模具、压铸模具制造和产品注塑、表面uv喷油丝印

faztime science and technology co., ltd. is specialized in industrial product copy number of surveying and mapping, product concept design, modelling design, reverse engineering (copy) design, structural design, mold design, hand-board prototype (cnc hand-board, rapid prototyping), metal production of the professional company. by implementing the management system, our company always provide customers with leading technology, excellent performance, quality first-class industrial design, hand-board model manufacture, precision mold and products, such as one-stop service. company since its inception, adhere to precise, innovative and enterprising, fast for the principle, the company in product design, mechanical processing and shaping technology and mould manufacturing as the core, to provide a full range of technical services. development of toys, gifts, electrical appliances, communications, media, automobiles, motorcycles, medical equipment and other products, including: 3 d products, sla rapid prototyping, structure design, all kinds of casing steel standard, toys shape tooth box production, gypsum, clay sculpture, structure with cnc batch processing for plastic parts production, all kinds of non-metal materials and aluminium alloy copper material product parts processing. company adopts the most advanced manufacture craft quickly, and the most advanced jingmixing cnc machining center, the widespread use of a variety of materials such as: plastic (abs, pmma, pc, pom, pp, pvc, pet, nylon, etc.), metals (aluminum and magnesium alloy, copper, iron, stainless steel, etc.), fast and efficient to provide you with exquisite appearance, inner precision products. strength of professional team will provide you with many years experience to improve the overall coordination of development and production of manufacturing services. the company has excellent technical personnel team and advanced technical equipment, the birth of each product are endowed with the strength of our team and the spirit of innovation, with the rigorous attitude, pay attention to keep improving design and manufacturing perfect products for our customers. quality is the source of our survival, quality comes from details, details makes perfect! high quality and low price have been our pursuit, we strive for win-win cooperation with you hand in hand!

1. industrial design: all kinds of industrial product appearance design, structure design, plastic and metal model design

2. the model include:

digital communications products, digital camera, notebook, telephone, fax machine, copier, printer, pda, dv, mp3 / mp4, monitors, chassis, intercom, etcb traffic products: body, air conditioning, lights, door panel, instrument panel,

such as aviation aircraft parts, etc health care equipment, medical equipment, fitness equipment, ultrasound detector, anesthesia machine, glucose meter, etcd electrical and electronic products: air conditioning, dvd, microwave ovens, vacuum cleaners, lcd tv, multimedia speakers, card reader, printers, photocopiers, etc anime products: anime peripheral model, cartoon characters, characters, the simulation figures, statues, cartoon figures, the world film stars, statues, etcf financial security products: video camera, teller machines (atm), loop automated teller machines (crs), self-help gets, self-help pay cost machine, alarm, infrared sensors, transmitters, injector, front end cameras.g electronic product testing jig, etc.h model, provide students graduation design! three-dimensional modeling. appearance design

3. all kinds of plastic planks, rubber hand-board model manufacture 4. all kinds of aluminum magnesium alloy's plate, metal hand-board model manufacture 5. 3d model plane , 2d turn 3d design 6. industrial exhibition and rapid replica silicon mold small batch sample. 7. provide plastic mold, metal stamping mold, die-casting mold manufacturing and injection molding, product surface uv fuel injection silk screen.

本产品的设计类型是通信产品设计，加工定制是是
