产品详情

built with ergonomics in mind, this tool features the patented quick disconnect nose housing and jaw case for rapid maintenance of the front end – with no need for tools! the quick disconnect mandrel collection system (mcs) safely collects spent mandrels for easy disposal and cleaner work areas. the air isolation switch on the mcs eliminates air flow when the mcs is disconnected. a rugged aluminum casting is designed to prevent damage and enhances the life of the tool.the left-right 90 ° swivel air fitting ensures the tool can be adapted to any workstation and the “ on/off ” switch minimizes air consumption and noise. a spring return ensures fast, consistent and reliable setting cycles reducing operating costs. the proset? 3400 is compatible with the pop? rivet presenter, the pop? remote mcs system (mcs5000) and pop? specialty heads.the 3400 will set 1/8" (3.2mm), 5/32" (4.0mm), 3/16" (4.8mm) and 1/4" (6.4mm)diameter rivets in all materials including stainless steel high strength structural rivets.
