

## 美国安捷伦示波器探头Agilent 10073C探头500MHZ 10 : 1 9成新 !

产品名称	美国安捷伦示波器探头Agilent 10073C探头500MHZ 10 : 1 9成新 !
公司名称	深圳市福田区利华仪器工具行
价格	面议
规格参数	类型:温度探头感应器 品牌:安捷伦 型号:10073C
公司地址	中国 广东 深圳市 福田区华强北路华强电子世界3号楼 展柜(华强广场Q2C030室)
联系电话	86 0755 83291293/82579960 013823165485

### 产品详情

产品名称 : 无源探头产品型号 : 10073c厂商名称 : agilent(安捷伦)产品简述 : 10073c passive probe, 10:1, 500 mhz, 1.5 mkey features & specificationsbandwidth: 500 mhzsystem risetime (calculated): <700 psattenuation ratio: 10:1input resistance: 2.2 m (when terminated into 1 mohm)descriptionthe agilent 10073c passive probe is our most rugged 500 mhz probe. with a 10:1 attenuation ratio and high 2.2 m ohm input impedance, it is ideal as a general purpose, high bandwidth passive probe for the agilent 300 mhz - 1 ghz 6000 series, 7000, 8000 and 9000 series oscilloscopes. the probe identification feature automatically configures the oscilloscope for the probe attenuation.the following accessories are included: retractable hook tip; orange, white, blue and green identification tags; ground bayonet, ic probing tip, adjustment tool and an alligator clip ground lead.bandwidth: 500 mhzsystem risetime (calculated): <700 psattenuation ratio: 10:1input resistance: 2.2 m (when terminated into 1 mohm)input capacitance: ~12 pfmmaximum input (dc + peak ac): 500 v cat i (mains isolated) 300 v cat ii (post receptacle mains)compensation range: 6 - 15 pf

本产品的类型是温度探头感应器，品牌是安捷伦，型号是10073C
