

# 丹麦PARLOCK , SD , MRS , MicroMax , MinMax , Drevsystemer换热器 ,

产品名称	丹麦PARLOCK , SD , MRS , MicroMax , MinMax , Drevsystemer换热器 ,
公司名称	南通市鑫平工贸有限公司
价格	面议
规格参数	加工定制:否 类型:SDMRSMicroMaxMinMax 品牌:PARLOCK
公司地址	南通市港闸区陈桥乡长路村2组
联系电话	0513-83518803 13912296599

## 产品详情

about parlock a-s

since its founding in 1970, parlock a-s driven engineering and trading company with an ever increasing trend. thus, we now have approx. 2000 sq ft office / production and storage of greve and a small "pick up" store on our jyllands-address in lund.

here, in addition, we have approx. 15 skilled and motivated staff ready to serve our customers.

our business areas, with transmission and ventilation components such as core areas, over time expanded to include perifiriudstyr - such as electromechanical and electronic monitoring and control equipment. the latest addition is our large selection in components for process and autogasudsug.

all our major foreign trade partners are certified to iso 9001 or iso 9002. in parlock a-s we work according to iso 9002, but has chosen not really certification.

in parlock a-s put the customer first. with us high flexibility and customization keywords.

we are thus always to be abreast of new complementary products and internal development that meets our customers. we move greatly from being "only" supplier to also be part of the customer development and design team, while parlocks conscious about the combination of quality, service, delivery and price are always factors that we and our customers consider to be the essence of a trading relationship.

our objective is to optimize these key areas well into the future and the next generation.

本产品的加工定制是否，类型是SDMRSMicroMaxMinMax，品牌是PARLOCK，流道截面积是== (m2)  
，重量是== (kg)，用途是==，传热方式是混合式换热器
