

## TD9516---多口USB限流IC

产品名称	TD9516---多口USB限流IC
公司名称	深圳市睿宇微科技有限公司
价格	面议
规格参数	
公司地址	深圳市宝安区民治大道东明大厦1322室
联系电话	13480193904

### 产品详情

the td9516/td9517/td9518/td9519 series of power switches are designed for usb applications. the 62mw n-channel mosfet power switch satisfies the voltage drop requirements of usb specification.

the protection features include current-limit protection, short-circuit protection, and over-temperature protection.the device limits the output current at current limit threshold level. when vout drops below 1.5v, the devices limit the current to a lower and safe level. the over-temperature protection limits the junction temperature below 140oc in case of short circuit or over load conditions.other features include a deglitched ocb output to indicate the fault condition and an enable input to enable or disable the device
