

high-power ultra- audio frequency induction heating power

产品名称	high-power ultra- audio frequency induction heating power
公司名称	长沙诺天电子科技有限公司
价格	面议
规格参数	加工定制:是 品牌:nuotian 型号:KGPS
公司地址	长沙市天心区大杉木冲路288号
联系电话	0086-073185821632 18674387888

产品详情

high-power ultra-audio frequency induction heating power supply is a harmonic matrix theory, using the new high-power electronic devices icbt and locking key ring technology, high-performance heating power, the power factor close to 1, the maximum power up to 100kw, can be completely replaced ultra high energy tube audio power, machine type frequency power supply, heating power and precision brake pipe.

features:

the whole machine energy efficiency energy efficient 95%, compared with 30-40% power tube energy-saving equipment, suitable for automatic production line of electronic control and monitoring system is comprehensive and reliable protection of the hole can often start, start the success rate of 100% output constant power, constant voltage, constant current load to adapt to a wide range of easy to adjust.

particularly for use in:

metal heat treatment, thermal processing,, quenching, diathermy, melting, welding the main components.

operation is simple and easy maintenance.

本产品的加工定制是是，品牌是nuotian，型号是KGPS，最大输出功率是100（kw），最大输入功率是100（kw），输出中频电压是750（V）
