特点

文惠同利水塔采用优质pvc胶片，其蜂巢式扇文大大增强冷热交换能力，并可抵受高温达70℃，保证水塔散热效能达至最佳水准，同时备有绿色及耐高温胶片供选用。 风扇选用轴流式风扇，采用高级塑料或铝合金制造，每套风扇离厂前均经过专业人员严格定位及平衡测试;由原厂采用厚身钢材制造，经国际标准热浸镀锌防锈处理，同时也可提供不锈钢配件。 文惠牌水塔外壳：均为防酸抗碱侵蚀之高级玻璃纤维，所有吸管及喷水设备采用高级塑料。不用加润滑剂。保证耐用。

文惠牌水塔以黄色为主(如需其他颜色需预定)

huishui tower is made of high quality pvc film, the honeycomb fan wen greatly enhance the heat transfer ability, and can be on the high temperature of 70℃, the guarantee water tower cooling performance to the best level, with green and high temperature resistant film for use at the same time. choose axial flow fan fan, adopts advanced plastic or aluminum alloy manufacture, every fan from factory before all through strict localization and balance testing professionals; by the original factory is made of thick steel manufacturing, after the international standard hot galvanized anti-rust treatment, at the same time can provide stainless steel fittings. wen hui card water tower shell: are all senior against corrosion of acid alkali resistant glass fiber, all adopt advanced plastic straws and spray equipment. don't have to add lubricant. ensure durability. wen hui brand water tower is given priority to with yellow (should be other color)
