

# 消声静压箱 恒进

产品名称	消声静压箱 恒进
公司名称	重庆恒进消声器有限公司
价格	1600.00/个
规格参数	加工定制:是 品牌:恒进 型号:HJPB-004
公司地址	重庆市巴南区界石镇武新村
联系电话	13883181020 15523339132

## 产品详情

消声静压箱

the static pressure box

静压箱是中央空调供配风系统中用于气流换向，流量分配功能的重要设备。但静压箱在送风同时，也将风机的噪声沿管道传递，致使靠近风机的管段、房间出风口存在较明显的噪声。我厂设计制造的xj消声静压箱有效地解决了这一问题。

消声量: 18db

安装方式:与普通静压箱同

the static pressure box is designed for the air distribution system of central air-conditioning. it is an important equipment especially used for airflow direction and airflow distribution

however, when the static pressure box in the air supply, the fan noise will also be passing along the duct and resulted in a more visible noise from duct near the fan and the air outlet of the room.

our factory has designed and manufactured this static pressure box xj muffler can effectively

solve this problem.

noise reduction: 18db<a>

installation: the same as the normal pressure box

本产品的加工定制是是，品牌是恒进，型号是HJPB-004，材质是镀锌钢板、穿孔镀锌钢板、吸声棉等，使用寿命是5年，耐温特性是100（ ），降噪效果是22-30dB，适用领域是通风系统中的分流及消声，单价是280元/平方，阻力损失是8%
