

FORC 小输出功率20mWEDFA

产品名称	FORC 小输出功率20mWEDFA
公司名称	绵阳慧联光通信设备有限公司
价格	1.00/只
规格参数	品牌:forc 型号:000
公司地址	四川省绵阳市涪城区长虹大道南段83号
联系电话	0816-2384466-802 18190011210

产品详情

forc 最小输出功率20mwedfa

包括最小输出功率20mw的edfa，包括1520-1600的掺钕超宽带光源，包括1.0,1.5,2.0的光纤激光器，包括1336nm的超荧光光源，1441nm的超荧光光源，包括检测折射率的仪器

based on innovative technology of yb-free double-clad er-doped fibers, the dc_edfa35/125 offers unprecedentedly high level of nonlinearity threshold (typical parameters of gain fiber: mfd~25 μ m, length ~6 m). with the demonstrated pulse energy of >1mj in 100ns pulse and > 600 nj in sub-ps pulse (after compression from 60 ps pulses), the dc_edfa35/125 makes 1.5 micron laser sources competitive with yb-doped fiber lasers in terms of peak power. in the standard configuration and with 40-w pump power @ 976nm, the dc_edfa35/125 allows one to extract more than 5-w average power in the range of 1550-1600 nm with diffraction limited beam quality. higher output power and efficiency up to 40% are available upon
