

T3077-1999 锻钢轴ASTM

产品名称	T3077-1999 锻钢轴ASTM
公司名称	通裕重工股份有限公司
价格	200000.00/个
规格参数	品名(样品):锻钢轴 材料材质:合金钢 类型:自由锻
公司地址	山东省德州(禹城)国家高新技术产业开发区
联系电话	86-0534-7521157 15964713866

产品详情

锻钢轴astm, gb / t3077-1999 42crmo 辊锻 转子 rotor

forged steel shaft astm, gb / t3077-1999 42crmo / 35crmo / 40crnimo roller forging

description:forged steel shaft-forged roller is widely used for mining equipment or metallurgical equipment industry.it conforms to the standard of astm, en, din, gb.the manufacturing equipment is 30~185mn hydraulic press, the forging ratio >4.5, the technical condition is in accordance with the standard of astm, en, din, gb.the product can be provided as per your drawing or specified requirements. smelting process:ef+lf + vdthe process as follow :ingot heat forging heat treatment (normalizing+ tempering) inspection rough machining ut 2nd heat treatment finishing machining inspection applications: the forged steel shaft-wheel support shaft forging is widely used for cement equipment industry.

specifications:

description	forged steel shaft- forged roller
material	alloy steel (42crmo, 35crmo, 40crnimo etc.)
material standard	astm or gb/t3077-1999
dimension	max.od: 2000mm max. length: 15000mm
weight	max. 250 ton
smelting process:	ef+lf + vd
process	ingot heat forging heat treatment (normalizing+ tempering) inspection rough machining ut 2nd heat treatment finishing machinin

	g inspection
ut standard	astm a388 or en10228

competitive advantage:quality control and management to the whole produce process, including ingot smelting, forging, heat treatment, machining and strictly final inspection prior to delivery.excellent product quality and service, competitive price, “ in-time ” delivery

公司现已成为中国最大的mw级风力发电机主轴生产基地、亚洲最大的球墨铸铁管管模生产基地、中国大型铸锻件主要制造商之一，可为冶金、矿山、水力发电站、火力发电站、风力发电站、核能发电站、船舶、石油化工、重型机械、海洋工程、航空航天、模具等行业提供1-5级大型锻件、铸件及核心部件，主要产品有mw级以上各类风力发电机主轴、dn50-2600mm球墨铸铁管管模、冷轧工作辊、大型支撑辊、大型汽轮机和发电机转子轴、大型曲轴、船用轴系、压力管道、双超临界电站锅炉管、压力容器锻件、机床床身、风电轮毂、大型内燃机铸件、大型锻件坯料、电渣重熔锭等，并可设计制造各类通用、非标设备及备件。

tag : forged steel shafts, forged the shaft

本产品的品名（样品）是锻钢轴，材料材质是合金钢，类型是自由锻，材料原始形态是铸锭，变形温度是热锻，后续深加工是有，表面处理是喷油，重量是200000（kg），打样周期是16天及以上，加工周期是16天及以上，年剩余加工能力是10（件），年最大加工能力是10000（件），加工贸易形式是来图、来样加工
