

# TMS320F2069 解密 单片机 芯片解密

产品名称	TMS320F2069 解密 单片机 芯片解密
公司名称	深圳市紫奇来科技有限公司
价格	面议
规格参数	类型:单片机 品牌:TI/德州仪器 型号:TMS320F2069
公司地址	深圳市龙岗区坂田街道环城南路5号坂田国际中心E栋903
联系电话	13537517289

## 产品详情

high-performance static cmos technology

d includes the t320c2xlp core cpu

d tms320f206 is a member of the

tms320c20x generation, which also

includes the tms320c203, and

tms320c209 devices

d instruction-cycle time 50 ns @ 5 v

d source code compatible with tms320c25

d upwardly code-compatible with

tms320c5x devices

d three external interrupts

d tms320f206 integrated memory:

× 16 words of on-chip dual-access

data ram

– 32k

× 16 words of on-chip flash

memory (eeprom)

– 4k

× 16 words of on-chip single-access

program/ data ram

d 224k × 16-bit maximum addressable

external memory space

– 64k program

– 64k data

– 64k input/output (i/o)

– 32k global

d 32-bit alu/accumulator

d 16 × 16-bit multiplier with a 32-bit product

d block moves from data and program

space

d tms320f206 peripherals:

– on-chip 16-bit timer

– on-chip software-programmable

wait-state (0 to 7) generator

– on-chip oscillator

– on-chip phase-locked loop (pll)

– six general-purpose i/o pins

– full-duplex asynchronous serial port

(uart)

– enhanced synchronous serial port

(essp) with four-level-deep fifos

d input clock options

– options – multiply-by-one, -two, or -four

and divide-by-two

d support of hardware wait states

d power down idle mode

d ieee 1149.1 † -compatible scan-based

emulation

d 100-pin thin quad flat package (tqfp)

(pz suffix)

本产品的类型是单片机，品牌是TI/德州仪器，型号是TMS320F2069，封装是QFP，批号是2012，单片机解密是TMS320F2069,解密,单片机,芯片解密,程序破解,cpld,聚龙国际
