

法兰闸阀Z41W苏州阀门厂家直销 不锈钢阀门

产品名称	法兰闸阀Z41W苏州阀门厂家直销 不锈钢阀门
公司名称	苏州英桥阀门设备有限公司
价格	200.00/台
规格参数	品牌:英桥 型号:Z41W Z41H:Z941H
公司地址	苏州市吴中区天鹅荡路2号富民工业园C1幢
联系电话	0512-68110879 13913159355

产品详情

法兰钢制闸阀 (FLANGE CONNECTED STEEL-MADE GATE VALVE) :

用途(Purpose) :

本系列闸阀用于公称压力PN1.0~25.0MPa，工作温度-29~600度的石油、化工、火力电站等各种工况的管路上，切断或接通管路介质。

Used on the pipeline of various working conditions of PN1.0~25.0Mpa and temperature29~600 in petroleum.chemical industry.steam power etc.industries to cut off or get through the medium in the pipeline.

结构特点 Features of construction:

- 1.符合国内外先进标准的要求，密封可靠，性能优良，造型美观。
- 2.闸板、阀座密封面用铁基合金堆焊或硬质合金堆焊而成，耐磨、耐高温、耐腐蚀、抗擦伤性能好、使用寿命长。
- 3.采用楔式弹性闸板结构，中大口径传动部位设置滚动轴承，开关灵活，启闭轻松。
- 4.阀杆经调质及表面氮化处理，有良好的抗腐蚀性，抗擦伤性和耐磨性。
- 5.可采用各种配管法兰标准及法兰密封面型式，满足各种工程需要及用户要求。
- 6.阀体材料品种齐全，填料、垫片可根据实际工况及用户要求合理选配，能适用于各种压力、温度及介质工况。

1.The product conforms with the requirements of the advanced standards both at home and abroad and is of a

reliable seal.good performance and nice modeling.

2.The sealing faces of both wedge disc and seat ring are made bu built-up welding with iron-based alloy or carbide alloy.wearable.anti-high temperature .Anti-corrosion.good performance of anti-scrap.long duration.

3.Use a wedge type elastic wedge disc construction.a roll bearing is set up with both medium and large apertures actuation.

4.The stem.via mass adjusting and surface nitriding treatment.is of a good performance of anti-corrosion.anti-scrap and wear.

5.Can use various piping flange standards and flange standards and flange sealing face types.able to meet with the demand of various projects and users.

6.The body materials are full of varieties. both packing and gasket can be reasonably selected upon the actual working conditions and users requitements and suitable for various.pressures and working conditions of a medium.
