

led一体式矿灯 led

产品名称	led一体式矿灯 led
公司名称	常州市聚能电子科技有限公司
价格	160.00/只
规格参数	型号:KL2.0LM(A) 光源类型:led 光源功率:1 (W)
公司地址	武进区礼嘉镇建东村孙东组
联系电话	86-051989828150 15322251141

产品详情

型号	KL2.0LM(A)	光源类型	led
光源功率	1 (W)	电压	3.7 (V)
灯罩型式	防弹玻璃	主要适用范围	各类矿井内的采掘作业、 户外作业、海洋作业、维 修作业、户外运动、考察 探险、抢险救灾等场所的 随身携带照明。

lithium-ionbatteryaidmolights

manual

implementionsstandards : gb-7957-2003

一、 characteristics&uses

- 1、 thisproductcasingmaterialmadefrombullet-proofglass,afullyenclosedstructure,canbeadaptedtothearshworkingenviro
nment,withasmalllightbeamandreduceintensity,improvingproductionefficiency.
- 2、 ledlightsourceforacold、 lithium-ionbatteryforpower,withautomaticmulti-
levelprotection,withoutsparks,completeeradicationofmininglampstocausetheaccidenthiddendangers.
- 3、 havingdedicatedcharger,withoutneedingtoberechargedmaintenanceandcosts,istotallymaintenance-freeproducts.

4、three working model: 9 lights lit can work 12-13 hours, 8 lights lit can work 14-15 hours, special circumstances lit lamp may work 120 hours.

5、mainly used for various mining operations in the mine, outdoor operation, marine operation, maintenance, outdoors ports, investigation adventure,

disaster relief and other places to carry lighting.

二、structure

1、light shell 2、battery box 3、indicator 4、cold-light source 5、splint

6、changing protection stopper 7、switches

三、technical parameters

power: 3.7v 2.6ah current work: 180ma

chargers: input: ac 110-250v

output: dc 4.5v 600ma

charging time: 8 hours

working hours: 13h illumination: start 1200lx after 11 hours 850lx

explosion-proof form: exs

四、use issues

1、initial use and long-time use of dedicated charger placed please green light to charge up, in order to protect the life of miner 's lamp.

2、products will be used to protect the charger socket bits set tight to water and dust. charging socket would lead to corrosion or blockage in mining lamp, and not be recharged into scrapped.

3、hec-glass protection film should be replaced every three months.

4、buying products within a year after the normal use of a functional fault, my company is responsible for the maintenance or replacement, user demolition, incomplete shell damaged more than warranty, the warranty does not belong to improper.

product features

lithium ion batteries used for energy, with led light source, shell used bulletproof glass materials, the whole light used completely

losed waterproof structure, can be used in the worst environment, distance greater than 30m, deputy light can work 120 hours to prepare the use of special circumstances, with small size, lightweight, maintenance-free, green environmental protection and other features. it is a major revolution in the mining industry.

mining industry: complete eradication of the hidden dangers from mine accidents caused by mining lamps.

mine owners: zero maintenance costs without charging equipment investment lower operating costs

workers: reduce the load, and production safety, improve efficiency, increase the personal income

production standards: gb7957-2003

key indicators: power: lithium-ion battery 3.7v 2.6ah、 2.7ah

lighting time: 13h

illumination: 11h later 350lx

charging time: 8h

explosion-proof form: intrinsically safe

weight: 154g、 194g

lithium-ion battery led mining lights
