使用说明：

Permatex the Right Stuff GASKET Maker

With cars in service longer and more new models arriving every year,

gasket replacement has brought its share of headaches to today's automotive

technician. Older parts no longer match, new and difficult-to-

seal surfaces are more common and locating the right replacement gasket is a

chore...

Permatex®, the first name in sealing engines, presents the Right Stuff Gasket

Maker a new solution for these frustrating situations. The Right Stuff instantly makes gaskets that are more reliable and longer lasting than cut gaskets, and at a fraction of the cost

This elastomeric rubber technology is blowout resistant and outperforms pre-cut gaskets. It also protects against leaks caused by vibration and thermal expansion.

The Right Stuff is OEM specified and proven effective in millions of miles of fleet

testing. Resistant to ATF, coolant, oil and other shop fluids, it is sensor-safe and operates in environments with temperature ranges from -75 ° F to 450 ° F (-59 ° C to 232 ° C) continuous, 500 ° F (260 ° C) intermittent.
