

# CMOS图像传感器 C8390 CISTA

产品名称	CMOS图像传感器 C8390 CISTA
公司名称	深圳赛豪半导体科技有限公司
价格	面议
规格参数	类型:其他IC 品牌:CISTA 型号:C2590C8390
公司地址	深圳市福田区华强北振华路56号兰光大厦A座918室
联系电话	86-075583188139 13826588029

## 产品详情

c2590 c8390 cista 1/3 cmos图像传感器

c2590 c8390 cista 1/3 cmos图像传感器

厂家：cista

封装：csp

赛豪半导体正规一级渠道原装正品 邵先生13826588029、0755-83188139、qq19228180

delivers high-quality uxga resolution at 15 fps o 1/5" optical format o high-speed, low-power o low noise, low dark current performance o mipi csi2 (single lane) compliance o on-chip pll and 10-bit adc o two-wire serial programmable interface o programmable image quality controls and badpixel correction

applications

o mobile device o surveillance o pc camera o automotive

c2590 camera chip is sophisticatedly integrated with a 2.1 megapixel cmos image sensor of 1/5-inch optical format and an on-chip isp (image signal processor) that features bad pixel correction, auto black level calibration, and auto exposure control (aec). the c2590 has a mipi csi2 compliance serial interface. it consists of a 1616x1212 active pixel sensor (aps) array that's capable of operating at 15 frames per second (fps) in uxga resolution. in addition to featuring superior low-light sensitivity and low dark current performance, a better and clear image is achieved through significant reduction of fixed pattern noise through an on-chip 10-bit adc, programmable gain control (pga) and

correlated double sampling (cds).all isp functions and sensor operations can be controlled and accessed by host via a 2-wire serial bus interface.the c2590 camera chip is suitable for low profile camera module packaging and is available in chip-scale package (csp)

本产品的类型是其他IC，品牌是CISTA，型号是C2590C8390，功率是1，用途是手机，封装是CSP，批号是15
