## 产品详情

Introducece HK Company briefly

HongKong is an international metro with abundant information and the free trading port. With good infrastructure and complete legal system of its own, it provides an advantage commercial environment to all enterprisers and traders. Therefore, more and more traders willing and establish their own companies in HongKong on different purposes, which improve not only the image of the company but also the competitive ability of the company itself.

Register Hongkong Company, open Hongkong Bank Account, use RMB settlement to realize the triangular settlement, and also reduce foreign exchange risk.
