3.产品用途(Application) 目前广泛应用于汽车面壳、面板，通信天线、LED灯具，展示架，PCB板及之固定，或者散热器风扇之固定，取代螺丝，不需工具即可完成装配。特点是容易固定，提高生产效率。该产品具有重量轻、体积小、美观、环保、不生锈、安装方便、快捷等优点。颜色有黑色，白色，自然色，还可按照客户所需颜色调色，规格齐全。 Nylon rivet is widely applied to fasten and fix auto panels, communication antenna, LED lamps, display racks, PCboard, radiators fans, etc. It replaces screws in function and easily to mount without tools. The rivet is easily to be fixed and greatly improve productivity; it is light in weight, small in size, artistic, environmental protected, stainless, conveniently and fast to mount. It is complete in spec. with diverse color (as black, white, and natural, etc.) in supply; moreover, the color can be customized.

4.产品性能(Function) 该系列产品为分体式尼龙铆钉，一般由子钉和母钉两个部件组成。作用是对两个分离的物件起到铆合作用。主要利用尼龙材料本身的弹性和记忆性能，从而实现其连接和紧固功能。安装时只要挤压两件套铆钉的子钉，母钉钉脚就会伸展并锁定产品；无需使用安装工具，易手工安装，省时、快捷。 This product is made up with male rivet and female rivet; it mainly functions to riveting two separated parts. The Rivet realizes the function of connection and fastening by utilizing the flexibility and shape memory of nylon material. You need just press the male rivet to mount, and then the female rivet will stretch to fix and lock the parts; it is easily, conveniently and fast to mount without tools.
