

OK氧气变送器在线氧量变送器

产品名称	OK氧气变送器在线氧量变送器
公司名称	东莞市纽雷伯仪器科技有限公司
价格	6680.00/台
规格参数	品牌:Newlab 型号:OK-301
公司地址	东莞市东城区东莞大道19号鼎峰国际广场2幢办公901号
联系电话	0769-23605885 13925757977

产品详情

Description:

The OK series transmitter is a cost effective solution in a small package for oxygen measurement and control applications. It is compact, cheap and easy installation and designed to provide the trained engineers with useful information relating to the concentration of oxygen in non-corrosive gases and non-hazardous area ex3c.com. Its microprocessor based main board can offer accurately output for trace levels oxygen concentration. It is ideally suited for installed in inert chamber or glove box at normal atmosphere.

Specification:

Model?	OK-101	OK-201	OK-301
Measuring Range?	0-10 ppm	0-100ppm	0-1000 ppm

Sensor Type?	Zirconia Oxygen Sensor
Accuracy?	±2% of Span Gas
Response Time?	Approximately 6 sec. for T95
Installation :	KF Flange
Measuring Type:	Diffusion
Operating Temperature:	0° to 45° C (32 ? 113° F) Steady State
Operating Humidity:	0?90% Non?condensing
Operating Pressure	Normal Atmosphere
Calibration@ 1% v/ min*:	Span/ Zero Gas (2 points) or 3 points
Analog Output?	4-20mA or 20-4mA Selectable ?0-10V/ 10-0V optional?
Digital Interface	RS485 for Calibration/ Setting

Calibration/ Setting Software	Included with RS485 to USB Converter
Power?	12VDC(24 VDC optional)
Power Consumption?	Maximum 2A
