1? Industrial grade heavy duty welding machine with unique anti-jamming protection technology has outstanding work performance under environmental extremes such as high temperatur and dusty environment etc.

2? lthas considerable power saving effect. The main contactor can be automatically disconnected after 25 seconds'lidless if loose sensitive switch.

3? It has ending arc function,after the welding of thick welding wire,loosing sensitive switch,the voltage of arc and welding torch.

4? It can weld beautiful aluminum weld pass if equipped with new devices,including electrode Feeding machine and welding torch.

5? Suitable for welding of low carbon steel and alloy steel,can be used in ship building steel structure,machinery and hardware industries etc.
